SETTING UP YOUR FX100

POWER ON/OFF
To turn on your FX100, long press and release the power button. The LED bulb will light up and an audio cue will indicate the system is on. To turn the FX100 off, long press and release the power button. Audio cue will indicate the system is off.

BLUETOOTH®
1. Pairing: For Bluetooth® pairing, press and hold the power button for 6 secs. The Bluetooth® LED will blink RED/BLUE rapidly indicating device is in pairing mode.
2. Using your Bluetooth® enabled device scan/search for available Bluetooth® devices
3. Select TREBLAB FX100 from the device list.
4. Once FX100 is successfully paired and connected, the LED will blink BLUE every 3 secs.
5. Disconnect by holding the power button for 6 secs.

RECONNECTING
After the connection is lost, the FX100 will try to reconnect automatically to any previously paired devices. If reconnection does not happen automatically, please go through the “pairing” instructions above.

AUX INPUT
To play audio using the supplied audio cable, plug the cable from the audio device to the “LINE IN” jack on the side of the FX100.
VOLUME

To adjust volume of the FX100, long press the volume up “+” and volume down “-” buttons on the top surface of the FX100.

CHANGE TRACKS

To change tracks on the FX100, short press the volume up “+” and volume down “-” buttons on the top surface of the FX100.

AUDIO PLAY AND PAUSE

To pause and resume playback when connected through Bluetooth®, short press the “Power” button.

PHONE CALLS

FX100 can be used to make and receive phone calls when connected through Bluetooth® (audio playback will be paused during calls). Answer/End Call: short press the “Power” button.

POWER BANK USAGE

FX100 is equipped with a power bank, which can be used to charge your smartphone or tablet.

Connect your device to the speaker’s power bank by plugging your charging cable into the USB port on the back side of the FX100. Press the “DC OUT” button to start charging.
The power bank is equipped with charge level indicator LED's.

Press the “DC OUT” button to activate the indicator. LED's that correspond to the current charge level will light up.

**CHARGING AND BATTERY**

To obtain optimum power capacity, the FX100 should be charged using the provided USB cable in your packaging box. To charge the FX100, plug the USB side of the cable into a power source and the Micro USB side into the port on the back of the FX100.

The speaker is equipped with charge level indicator LED's. The current level of charge is displayed while charging.

1. Charge level is between 0% and 25%: the 25% indicator will begin to flash.
2. Charge level is between 25% and 50%: the 50% indicator will begin to flash.
3. Charge level is between 50% and 75%: the 75% indicator will begin to flash.
4. Charge level is between 75% and 100%: the 100% indicator will begin to flash.
IMPORTANT CHARGING AND BATTERY INFORMATION

Do not charge your speaker longer than for 6 hours at a time, as this will lead to a reduction of battery capacity and void your manufacturer’s warranty.

Unplug the FX100 from the charging cable and the cable itself from the power source when not in use.

If left unused, a fully charged battery will lose its charge over time. We recommend fully charging the FX100 twice a month to ensure sufficient battery life.

Do not leave the speaker exposed to extreme heat or cold because this will reduce the capacity and lifespan of the battery.

Do not place the speaker close to fire as the batteries may explode. Batteries may also explode if damaged.

To charge the FX100 use only the cable provided in the packaging box.

Make sure the speaker is completely dry before charging.

IMPORTANT SAFETY INFORMATION

Never disassemble or modify your speaker for any reason. Doing so may cause the speaker to malfunction or become combustible. Damaging the speaker will void your manufacturer’s warranty. Do not use excessive force when operating the speaker. Do not let the speaker drop onto a hard surface.
Avoid exposing the speaker to extreme temperatures (below 37F/3Co or above 112F/45Co). Extreme temperatures may cause the deformation of the protective cover and reduce lifespan of the **FX100**.

Avoid putting LED lights close to the eyes of humans and animals.

Do not use the speaker outdoors during a thunderstorm. Thunderstorms may cause malfunction and increase the risk of electric shock.

**TROUBLESHOOTING**

🔍 The LED does not come on when turning the speaker on

This can happen when the battery has lost charge. Charge the **FX100** for at least 30 minutes and the problem should be solved.

🔍 Can't connect the speaker to your device

1. Turn off the **FX100**.
2. Go to the Bluetooth® menu on your source device and delete all saved devices from the list by clicking on “Forget this device”.
3. Turn the Bluetooth® on your source device OFF then back ON; **TREBLAB FX100** will be deleted.
4. Power OFF your source device then and then turn it back ON.
5. Power ON the **FX100**.
6. Enter the device into the pairing mode and follow the instruction for connecting.
My device is asking for a password

If prompted for a password, enter 0000 on your device.

Frequent disconnection and noise

1. Ensure the FX100 is fully charged.
2. Ensure that the distance between your device and the speaker is less than 30 feet / 10 meters.
3. Ensure that nothing is blocking the signal between your device and the FX100.
4. Check if the music is paused.
5. Check if the volume level is set both on the source device and on the speaker.
6. Check if the speaker is running out of power.
