- Bluetooth range Up to 15 m
- Frequency response 50 Hz - 20 kHz
- Operating Distance 30 feet/10 meters
- Talk time Up to 6 hours
- Play time Up to 5 hours
- Standby Time Up to 125 hours
- Charging Time Up to 2 hours
- Battery type Li-ion Polymer 50 mAh, rechargeable
- Power requirement 5V 1A
- Impedance 32 ohms
- Audio sensitivity 101.7 dB SPL

i While making phone calls, only the right unit produces sound.

HOW TO CHARGE

The battery has approximately 5 hours of battery life. When the sound becomes intermittent, you hear **Low Battery**, or if the LED indicator flashes 3 times every 20 seconds, it means the battery is running low. Once this happens, you have about 5-10 minutes of use before the earphones power off automatically.

Charge the batteries by:

- Using the provided USB/micro USB cable, connect the micro USB end of the charging cable to the micro USB charging port and the standard USB end to a PC USB port or USB charger. You will have to lift the rubber covers. Lift the rubber cover from the end farthest from the ear rests.
- © The LED indicator will be red while charging. It will turn blue after 1-2 hours. The battery is now fully charged.

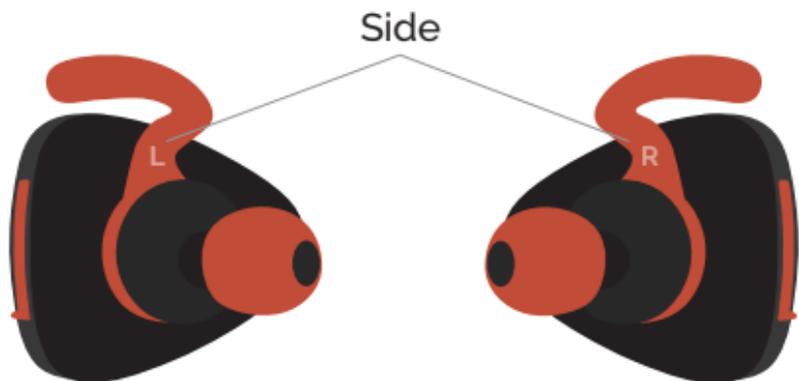

LED

While charging	Red light is on
When fully charged	Blue light is on
Low battery	Red light flashing 3 times every 20 seconds
Pairing mode:	Blue and red light flashing

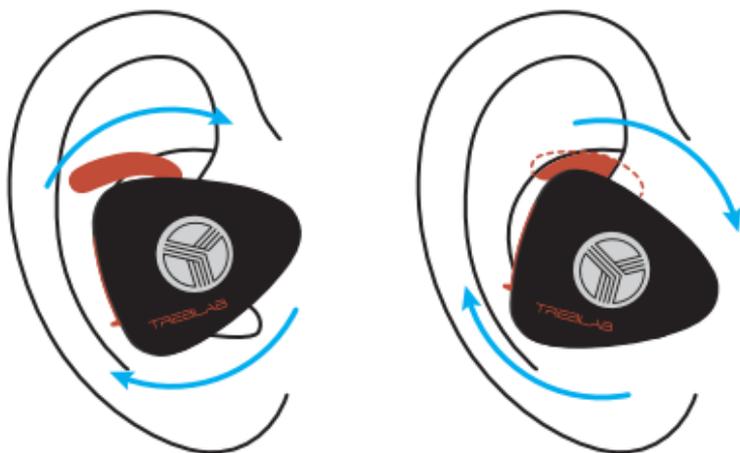

WEARING THE TREBLAB EARPHONES

To properly wear the ear units:

- 1 Identify the Left and Right earphones. Look above the ear bud for an R or L.

- 2 Place the earphone with the ear bud in your ear canal and tuck the "wings" into the front ear fold facing up.

PAIRING LEFT AND RIGHT CHANNELS

Before you can connect to a device, you need to pair the left and right earphones:

- 1 Ensure the Bluetooth on your device is turned off. If it is not, only the left earphone will pair.
- 2 Start by pressing  on both earphones at the same time for up to 10 seconds. You will hear an audible cue saying **Power On** and both ear units will be flashing red and blue. Release  when this happens.
- 3 Once paired to each other, you will hear a single beep on the right channel. Another cue will be heard stating **Connected** and then **Left Channel** and **Right Channel** confirmation checks.
- 4 After the confirmation checks, you will hear a single beep in the left channel and the audible cue stating the earphone is **Pairing**. The left ear bud will rapidly flash blue and red. The right will blink once every 5 seconds.

PAIRING A BLUETOOTH DEVICE

To pair your Bluetooth device:

- 1 Activate the Bluetooth feature on your device and search for Bluetooth devices (check your device's manual if you're unsure how to do this).
- 2 Select **TREBLAB X11** from the device list.
- 3 If asked a passcode, enter **0000** or **1234** and the earphones will then connect to your device.
- 4 After pairing successfully, the **LED indicator** will flash blue and you will hear a double beep and hear ***Pairing Successful*** and ***Connected***. You can then answer the phone or listen to music.
- 5 The next time you switch on the earphones, they will automatically search for and attempt to connect to the last paired device.

RE-PAIRING OR PAIRING NEW DEVICES

The **TREBLAB** can only be paired to one device. If you want to use the **TREBLAB** to listen to another device or when you are re-pairing to the same device:

- 1 Ensure the Bluetooth is turned off on any previously paired devices.
- 2 Pair the ear buds. See **Pairing the Left and Right Channels**.
- 2 Pair to the Bluetooth device. See **Pairing a Bluetooth device**.

TROUBLESHOOTING

- ❓ If you cannot hear audio from your device, please try the following:**
 - 1 Ensure that the earphones are fully charged, switched on, paired with and connected to your device.
 - 2 Check that the earphones are within 30 feet / 10 meters of your device and that there are no obstructions (such as walls or other electronic devices) between the earphones and device.
 - 3 Only one device may be paired to these earphones at the same time, so please ensure there are no conflicting Bluetooth devices trying to connect to the earphones.

- ❓ If the earphones will not switch off, they can be reset back to normal by charging them.**

- ❓ If you receive an intermittent signal, please ensure the earphones are fully charged before continuing use.**

- ❓ If you do not use the earphones for longer than 3 minutes while not connected to a device, they will automatically power off to conserve power.**

SAFETY RULES

- ❗ Never disassemble or modify your headset for any reason. Doing this may cause the headset to malfunction or become combustible. The damage to your device can void your manufacturer's warranty.
- ❗ Do not allow your device to get wet - liquids can cause serious damage. Water damage to your device can void your manufacturer's warranty.
- ❗ Avoid exposing your device to very cold or very hot temperatures (below 37F/3C° or above 112F/45C°). Extreme temperature can cause the deformation of the device and reduce the charging and life of your device.
- ❗ Avoid using your device's light close to the eyes of children or animals.
- ❗ Do not use the device during a thunderstorm. Thunderstorms can cause the device to malfunction and increase the risk of electric shock.

NOTE: Do not charge your headset for much longer than 2 hours at a time, because this can lead to reduction in battery capacity and can void your manufacturer's warranty.

Use only the provided USB/micro USB cable.

Excessive sweating may damage the product. Make sure to wipe the headphones dry before charging.

BATTERY INFORMATION

- ❗ Your device is powered by a rechargeable battery. Unplug the charger from the electrical plug and the device when not in use.

- ❗ If left unused, a fully charged battery will lose its charge over time. We recommend a full charge twice a month to ensure battery integrity.
- ❗ Please do not leave the device in hot or cold places, such as in a closed car in summer or winter conditions because this will reduce the capacity and lifetime of the battery.
- ❗ Do not dispose of the batteries in a fire as they may explode. Batteries may also explode if damaged.

We really appreciate that you chose **TREBLAB** as your trusted brand of Bluetooth earphones and sincerely hope you enjoy the great sound and comfort **TREBLAB** provides. We love making our customers happy by providing true value with our products.

If for any reason you are not completely satisfied with your purchase, let us know immediately and we will do everything to make sure you are happy.
