</tr>
</tbody>
</table>
Voice assistant activation: Press and hold the MFB button on the left or right earbud for 1 second.

WEARING METHOD

Using the correct size ear-tips is critical for the maximum external noise isolation and a snug secure fit. It is also common to have different sized ear canals so try one ear-tip on at a time to find the best fit for each side.

To change the silicone ear-tips:

1. Turn over the ear-tip upper cover.
2. Rotate and firmly push the ear-tip tube to cover the ear-tip pillar.
3. Turn the ear-tip upper cover back on the nozzle.

EARBUDS INTRODUCTION

MIC - MICROPHONE HOLE
LED - DUAL-COLOR LED INDICATOR
MFB - MULTI-FUNCTION BUTTON
L/R MARK
CHARGING PINS
CHARGING

A fully charged charging case can charge completely discharged earbuds five times. The fully charged earbuds provide 4 hours of playtime at maximum volume and up to 5 hours at medium volume. When the battery is running low, you will hear the “Battery low” voice prompt.

1. To charge the case

Be sure to use a 5V DC, 0.5 - 1A adapter or charger. Using a power source with lower power will increase the overall charging time. Connect the charging case to the power source with the micro USB cable. The case has 4 blue LED indicators. One indicator will flash while charging. Not flashing indicators show the charging level: 4 LED = full battery, 3 LED = 75% of the battery, 2 LED = 50% of the battery, 1 LED = 25% of the battery. To check the charge level of the charging case, put the earbuds into it again. It takes about 2 hours to charge fully the case.

2. To charge the earbuds with the charging case

When the earbuds’ battery is low, you’ll hear the “Battery Low” voice prompt.
Put the left and right earbud into the slots in the charging case. The earbuds will turn OFF automatically. Now the charging case starts to charge the earbuds. The red indicators of the earbuds will turn on. The charging case indicators (the quantity depends on the charge level of the case) will turn on. It takes about 1 hour to charge the earbuds. When the earbuds are fully charged, the charging indicators will go OFF.

**SETTING UP YOUR TREBLAB xFit**

**To turn the earbuds ON**

1. After you take the earbuds from the charging case they will turn on automatically.

2. Another option to turn them on is to hold the **MFB** button on both earbuds for 2 seconds. You will hear the “Power ON” voice prompt, and the white LEDs will start flashing.

3. You will hear the “Connect Left” and “Connect Right” voice prompt in the appropriate earbud while pairing between them and the “Connected” voice prompt after connecting to the device.
To turn the earbuds OFF

1. Press and hold any MFB button for 5 seconds. You will hear the “Power OFF” voice prompt, and the red LEDs will light up twice and then go off.

2. Alternatively, plug the left and right earbuds into the slots in the charging case. The earbuds will turn OFF automatically.

PAIRING

You can pair the xFit earbuds with your device either together or separately. Using only one earbud at a time will help you extend the overall playtime. Please read the instructions below to make the pairing process smooth and easy.

Note: To ensure the best level of the Bluetooth performance, we recommend keeping the distance between the Bluetooth device and TREBLAB xFit as short as possible.
To pair both earbuds

1. Take the earbuds out from the charging case. You will hear the “Power ON” voice prompt, then “Connect Left” and “Connect Right” voice prompt a few seconds later.

2. Activate Bluetooth on the device, scan/search for TREBLAB xFit, and click CONNECT.

3. If prompted by your device to connect, select Yes.

4. You will hear “Connected”.

When you turn the earbuds ON, they will try to reconnect with the recently connected device. If the reconnection does not happen automatically, the earbuds will try to find the next device in the pairing list. You can only connect and play audio from one device at a time. But you can save up to seven connected devices in the pairing list.

Note: The right earbud is the master (main) one. For a better performance, keep your smart device in your right pocket, in the bag on your right side, on the right half of the table, etc.
To pair one earbud only

1. Take one earbud out from the charging case. You will hear the “Power ON” voice prompt.

2. Activate Bluetooth on the device, scan/search for **TREBLAB xFit**, and click CONNECT.

3. If prompted by your device to connect, select Yes.

4. You will hear “Connected” in the earbud after the successful earbud connection.

**AUDIO PLAYBACK**

To pause and resume the playback, press the **MFB** button.
To change tracks on xFit, press twice the **MBF** button on the right earbud to play the next track and press twice the **MBF** button on the left earbud to play the previous track.
PHONE CALLS MANAGEMENT

**TREBLAB xFit** can be used to make and receive phone calls when connected via Bluetooth. Audio playback will be paused during the calls.

</table>

VOICE ASSISTANTS SUPPORT

**TREBLAB xFit** earphones are compatible with Siri, Alexa, Google Voice Assistant and others. To use a voice assistant, press and hold the **MFB** button on the right or left earbud for 1 second.
# Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Device doesn’t find TREBLAB xFit</strong></td>
<td>Make sure the <strong>xFit</strong> buds are not paired with any other device, as they can only pair with one device at a time. If <strong>xFit</strong> are in pairing mode and the right earbud flashes white and red, but still is not found by your device, please restart your device and the headset.</td>
</tr>
<tr>
<td><strong>Frequent disconnection and noise</strong></td>
<td>Make sure that the distance between your device and the earbuds is less than 33 feet / 10 meters. Make sure that nothing is blocking the signal between your device and your <strong>xFit</strong> earbuds. If the earbuds are ON, but disconnected from the device for longer than 3 minutes, they will automatically turn OFF to save power.</td>
</tr>
</tbody>
</table>
Can't turn the earbuds ON

Please make sure the earbuds are charged, if not – charge them and try again.

Can't connect the earbuds to the device

Make sure that TREBLAB xFit are charged.

Go to your device's Bluetooth menu and delete all saved devices from the list by clicking “Forget this device”.

Turn your device's Bluetooth OFF, then turn it ON again: TREBLAB xFit won't be on the list of devices.

Restart your device.

Take TREBLAB xFit off the charging case, this will set them to power ON.

Follow the instructions for connecting (page “PAIRING”).

If nothing helps, then try to reset xFit to the factory settings.
RESTORE THE FACTORY SETTINGS TREBLAB

To restore the earphones back to the factory settings:

1. Turn the earbuds OFF.
2. Press and hold the MFB button on both earbuds for 6 seconds. The LEDs will flash Red and White.
3. Put them back into the charging case.
4. Now the earphones are restored to the factory settings and ready for use.

SAFETY RULES

✔ Never disassemble or modify your xFit for any reason. Doing this may cause the device to malfunction or even become combustible. The damage to your device can void your manufacturer’s warranty.

✔ Do not allow your device to get wet - liquids can cause serious damage. Make sure to wipe the earbuds dry before charging.

✔ Avoid exposing TREBLAB xFit to extreme temperatures (below 37°F / 3°C or above 112°F / 45°C).
Extreme temperatures can cause the deformation of the **xFit** components, reduce the battery life and the lifespan of your new earphones.

✔️ Avoid putting the device's LED lights close to the eyes of children or animals.

✔️ Do not use your **xFit** during a thunderstorm. Thunderstorms can cause serious malfunction and increase the risk of electric shock.

**NOTE:** Use only the provided USB / micro USB cable to charge.

**BATTERY INFORMATION**

✔️ Your device is powered by rechargeable batteries.

✔️ Unplug the charging case from the electrical plug when not in use.

✔️ If left unused, a fully charged battery will lose its charge over time.

✔️ We recommend a full charging twice a month to ensure the battery integrity.
Please do not leave the device (and the charging case) in hot or cold places, such as a closed car in summer or winter because this will reduce the capacity and lifetime of the batteries.

- Do not put the batteries in a fire as they may explode.
- Batteries may also explode if damaged.

**RECYCLING**

The earphones can be recycled, and they should be in order to keep our planet clean. Where should you bring them?

In the US, there are a couple of options:

1. Best Buy has a recycling program. Just take the broken earbuds with you next time you visit a Best Buy store.

   This link will help you find the best location: https://www.bestbuy.com/site/store-locator/

2. Check for other possible locations next to you on these websites (just enter your ZIP to find a location):

   https://www.call2recycle.org
https: //search.earth911.com
https: //recyclenation.com/find

In **Canada**, please visit the links below:
https: //thinkreuse.net
https: //www.call2recycle.ca

In the **UK**, please visit the links below:
https: //www.recycle-more.co.uk/
https: //www.recyclenow.com/local-recycling
