

Our Process

What are your top skin concerns?

Each facial treatment for first time clients begins with a Q&A discussion of your specific goals & concerns. Through a series of comprehensive questions, responses given provide insight into individual skin type needs & deficiencies.

What do we see in your skin?

An analysis of your skin before & after makeup removal, with the use of a magnified light, allows for a thorough examination to precisely evaluate what is going on above & beneath the surface of the skin.

What facial treatment is best for your skin?

Your esthetician will make a recommendation for a professional facial or treatment based on the unique needs of your skin (taking into consideration your personal desires & budget).

What's your skin type?

At the conclusion of your service, your esthetician will determine your skin type, provide a future treatment plan addressing your skin issues, concerns & goals, along with at-home product suggestions from the Renée Rouleau line to reveal healthy, glowing & beautiful skin for a lifetime.

What's your skin care IQ?

Your esthetician will suggest recommended reading through our online educational resource so you can learn how to achieve your personal skin care goals long after the treatment is over.

Renée Rouleau (pronounced Roo-LOW) is a trusted and sought-after skin care expert and esthetician loved by celebrities, editors and facial obsessives everywhere. Her exclusive skin care line addresses 9 distinct skin types and contains more than 70 products that blend the best of nature and science—and are not tested on animals. She regularly travels to France to immerse herself in technique and for inspiration, which she passes on to her skilled estheticians.

“One size does not fit all. **Beautiful, healthy and glowing** skin requires choosing products formulated for the needs of your skin. And it all begins with our **9 skin types.**”
