

WS WEBLEY & SCOTT
GUNMAKERS 1790

SHOTGUNS | RIFLES | ACCESSORIES

At Webley & Scott, we can trace our origins and heritage back to 1790 in Birmingham, England. Available throughout the world, Webley & Scotts' time proven ethos of combining heritage with technology whilst never losing sight of the consumers desire for value is demonstrated throughout our product range.

We are now proud to be manufacturing both Rimfire and Centrefire Rifles as well as a great range of quality Shotguns designed for all kinds of shooting disciplines.

2016 has seen a great expansion to our portfolio including the Classic Bolt Action Empire Centrefire Rifle which is now available with new stock configurations as well as the launch of our new Xocet Bolt Action Rimfire Rifle which is available in .22LR, .22WMR and the popular .17HMR calibre. Developed in conjunction between Webley & Scott

and a leading German firearms manufacturer, this rifle provides amazing value whilst ensuring reliable, shot after shot accuracy.

We are also pleased to announce the addition of the 950 and 1000 series of Over & Under Shotguns to the Webley & Scott portfolio. Using the latest in shotgun technologies at the same time as keeping with Webley & Scotts' ethos, these two new series of shotguns will suit whatever shooting discipline you require.

XOCET RIMFIRE RIFLE

Made in Germany

The new Webley & Scott Xocet Bolt Action Rimfire Rifle has been designed and developed in conjunction between Webley & Scott and a leading German firearms manufacturer. This originated from a desire to produce a Rimfire Rifle that would not only provide shot after shot accuracy but would also be manufactured using the latest in technological innovation and production processes. The result of this has seen the birth of the Xocet Rifle!

Available in 22LR, 22WMR and 17HMR in both standard sporter barrel profiles as well as the perfectly balanced Carbon Fibre version.

All models are threaded with standard ½" UNF Thread with Match crowning for greater accuracy. Every rifle is subject to a stringent Quality Control process and all feature a German CIP Proof mark.

Finished with a lightweight and full sized Ambidextrous Polymer Stock that ensures effective use whether on the range or in the field and the inclusion of a standard Picatinny Scope rail plus a fully adjustable trigger ensures shot after shot accuracy.

FEATURES

- Ambidextrous Lightweight full size Polymer Stock
- Available in 3 popular Rimfire Calibres – 22LR, 22WMR & .17HMR
- Fully Adjustable Trigger
- Integral Picatinny Scope Rail
- Manufactured in Germany
- ½" UNF Threaded Barrel
- Match Muzzle Crown for precise accuracy
- 2 x 10 round magazines (5 round available)
- Sporter and Varmint Carbon Fibre Barrel Models
- Guaranteed accuracy

EMPIRE CENTREFIRE SPORTING RIFLE

After an absence of 100 years from rifle-making, Webley & Scott released the Empire centrefire rifle in celebration of their tradition for quality gun making. Produced using the latest rifle technology, the Empire shares all the traditional qualities and heritage of those now prized rifles from 100 years ago:

- Accuracy - provided by the Sub-MOA hammer forged barrel
- Reliability - assured by the utilisation of a strong Mauser style action
- Speed to target - the traditional, heritage design insures fast mounting
- Safety - three position safety and detachable steel magazine

Every Empire Rifle features a detachable steel magazine with quick release button as well as a classic jeweled bolt that compliments the stylish and simple lines. This Classic British-designed Sporting Rifle is a combination of Heritage, Tradition and Technology.

Created by Webley & Scott to be perfect for all hunting conditions whether stalking deer, hunting driven boar or shooting vermin.

CONFIGURATIONS

FEATURES

- Precision Hammer Forged barrel for ultimate accuracy
- Sub MOA Performance at 100 yds
- Match Muzzle Crown for Precision accuracy
- Factory Screw Cut ½" UNF
- Metal 5 Shot Detachable Magazine
- 3 Position safety
- Fully Adjustable Trigger
- Jewelled Bolt
- 7 Stock Options – 4 of which are custom inletted

Detachable Metal Magazine

Jewelled Bolt

Free Floating Barrel

Traditional Walnut

Grade 2+ oil finished & sealed weather proof walnut. Elegant rosewood caps, with a classic look and feel

Thumbhole Laminate

Empire grey laminate classic thumbhole sporter stock

Hogue

OverMolded stock in black or green, weatherproof workhorse

1000 SERIES

The new 1000 series of Shotguns has been designed and developed to provide a superior handling Shotgun that is not only balanced and reliable but also a thing of beauty. Manufactured in Italy using a combination of modern techniques with traditional craftsmanship, the 1000 series is a gun that will last for generations to come.

The receiver is milled from a solid block of moly-chrome steel and barrels feature a deep and rich blueing that not only provides a durable finish against corrosion but also looks amazing.

The 1000 series feature a 3 inch chamber as standard that has the Italian CIP Proof mark which guarantees performance and strength. Combined with 5 Chokes as well as a beautifully finished stock and forend that features a grade 2+ oil finish with a unique interchangeable rubber kick pad that is adjustable for different lengths of pull.

This beautiful gun is then finished off with an Italian made Hard case and is supplied with a Webley & Scotts' 3 year warranty.

Made in Italy

950 SERIES

The latest addition to the Webley & Scott portfolio is the new 950 Series of Over & Under shotguns. Based on the time proven 900 Series that has earned the reputation of being a reliable and quality shotgun. The new 950 Series builds on this reputation at the same time as improving the finish and aesthetics of the gun.

Firstly the action is made using a solid hammer forged process that ensures an extremely strong build quality that will stand the test of time. This is a process that is not used by many manufacturers due to it's complexity and is something that sets the 950 Series apart from others. Once the forging process is complete, it is then machined on the latest CNC machines to ensure tight tolerances are met and are consistent from one gun to the next.

Sporter

The 950 Series have 3 inch chambers capable of firing up to 3 inch magnum steel shot cartridges and are supplied with 5 chokes as standard. Available in both 12g & 20g with either Manual Safety on the Sporter Series or Automatic Safety on the Game Series.

Every 950 is finished with a beautifully presented Turkish Walnut Stock and Forend that has an excellent wood to action fit and a balance that will match many other guns with much larger price tags. So, if you are looking for a reliable, accurate and nicely balanced shotgun that represents amazing value for money, you cannot go past the new 950 Series.

FEATURES

- Steel Action - solid hammer forged process
- Boxlock Action
- 3"/76mm Chamber
- Steel Shot Proofed
- 12 and 20 Gauge Game and Sporter
- 28"/71cm & 30"/76cm Barrels
- Ventilated Rib with Fibre Optic Front Sight (Sporter)
- Solid Rib with Brass Bead (Game)
- Supplied with 5 Chokes
- Coined Finish with Engraving
- Single Selective Trigger
- 3 Year Warranty
