

Infinity Bond IM-E2200

Infinity Bond IM-E2200 is a formulated hot melt that is suitable for a number of specialty applications. Infinity Bond IM-E2200 is a premium light-colored adhesive used for reactivation on board stock in filter manufacturing industry. It displays excellent hot tack, excellent mileage, and excellent adhesion to all types of filter media and expanded metal or wire.

TYPICAL PROPERTIES

Viscosity @ 350°F.....	3000 cps
Softening Point.....	170°F
Color.....	Light Yellow/Amber
Application Temperature.....	300° - 350°F

HANDLING & STORAGE

For best results, use product within 365 days.

SAFETY

When handling and working with hot melt adhesives wear protective clothing and eye protection at all times. To minimize the risk of flammable vapors, do not exceed 400°F melt temperature.

CLEAN UP

For best results, allow product to cool and manually remove excess adhesive with scraper. Consult your hot melt equipment manufacturer for proper clean-up procedures or contact your Infinity Bond Representative for additional help.

FDA STATUS

Consult your Infinity Bond representative for the most recent FDA status information.

ROTATE STOCK

For best results, use oldest lots first.

TOXICITY

Under normal conditions of use this product is considered nontoxic. Consult the SDS for additional information.

IMPORTANT NOTICE TO CUSTOMER
