Volume Per Tube: 1-1/2 ounces

Glue Gun Weight: 3.2 ounces with glue

Watts Volts: 80 Watts, 120 Volts

Glue Tube: Aluminum Tubes Only

Case Pack: 6

UPC #: 018239329922

Pounds Per Master: 11

Glue Gun Weight: ---

Cubic Feet Per Master: 1.1

Master Case Size: 15"x13"x8"

Package Size: 6-3/4"x9-7/8"x3

Packaged: White Box

PRO100 Specialty Glue Gun (Industrial Glue Gun)

A unique glue gun with the capability of using special hot melt adhesives such as pressure sensitive and fugitive (removable) glues that cannot be made into sticks. These glues are normally extruded using bulk applicators and using the Pro100 will save time and money on jobs too small for these applicators. This system allows you to dispense your own "credit card" removable adhesive, in any size or shape needed. (Also available in permanent bonding formulation). The gun has adjustable temperature settings for high or low temperature applications. Ball check nozzle in the aluminum tube prevents dripping. Three formulas available and may be custom filled with your choice of adhesive.
