Works with RYOBI® 18V Lithium ONE + Battery

Kit Includes: Hybrid-120 Glue Gun, P-128 Ryobi 18V Lithium-Ion One+ Compact Battery & Charger, and 8ft. AC Power Cord

Introducing our New Versatile Hybrid-120 Cordless/Corded Industrial Glue Gun! The Hybrid-120 can be used as a cordless glue gun or with the option to use an AC power cord. The cordless feature provides versatility to go anywhere and powered by a high performance 18-Volt Lithium-ion compact battery. Allows up to 1 hour of continuous cordless operating time. For corded use connect the 8 foot AC power cord into a 110 volt outlet for applications that require longer continuous use. The Hybrid-120 uses a PTC heating system that gives you consistent working temperature and longer run time.

*Glue gun sold separately and replacement Ryobi batteries & chargers available at Home Depot Stores or homedepot.com
