

Hop'n'Squeak

how to use this chart

Place this size chart on a suitable floor surface, then place your child's heel at the baseline as indicated. Measurement can then be taken to the longest part of the foot, i.e. - the big toe. Please ensure all of the foot is within the line of the chosen size, taking into account a little growing room. If you require further assistance please phone us: 029 20751595.

wriggle room

Our Hop'n'Squeak squeaky shoes have an extra 1cm wriggle room in addition to the foot length of this sizing chart. **Your child may have been measured in a specialist children's footwear shop, therefore we've designed our shoe sizes to match the leading children's shoe shops' sizing. So, if they measure your child as a size 5 then they'll also be a Hop'n'Squeak size 5.**

size 6 - length 140mm, width 59mm

size 5 - length 134mm, width 57mm

size 4 - length 128mm, width 55mm

size 3 - length 122mm, width 53mm
