

Material Document Relating to REACH Regulation (EC) No 1907/2006

Chemicals Hazardous to Health & the Environment.

I can confirm that we do not supply any products to your company which are controlled under the REACH or RoHS regulations with the exception being the products identified below, which are Tesa products

If this changes in the future we will contact you and supply the relevant required paperwork.

We use only the minimum amount of packaging to safely ensure that the product reaches the customer in a good condition without compromising the integrity of the product.

The supplied below mentioned Tesa products contain more than 0.1% w/w 6,6'-di-tert-butyl-2,2'-methylenedi-p-cresol (EC Number: 204-327-1, CAS Number: 119-47-1).

The respective substance is used as an antiaging substance in the adhesive of the Tesa product. No exposure is expected for the intended use to our current knowledge. Therefore, the intended use of the product is safe and does not require further safety instructions.

Additionally, there is no change in labelling of our products.

We provide this product information based on our current knowledge and experience. We can-not give any warranty nor assume any responsibility for factors outside of our control or knowledge.

Furthermore, in regard with our responsible care principles we are working on products contain-ing no substances included in the candidate list.
