**Highlights:** - Cures in 15 minutes, - Chemically fuses to ABS, acrylic, and PVC, - Cast, glue, fill and form, - Mechanically bonds to rough surfaces such as wood, stone, and concrete, - Can be colored and tooled with long shelf life

**Description:** Plast-aid® forms a strong, waterproof, durable plastic with thousands of uses in about 15 minutes. As it cures, it changes consistency to be used to cast, glue, fill and form. It chemically fuses to many plastics such as ABS, acrylic, and PVC, and those which become sticky after testing with a drop of Plast-aid® liquid. Will not bond to all plastics such as polyethylene or nylon. Plast-aid® mechanically bonds to rough surfaces such as wood, stone, and concrete.
