

HOW TO MEASURE YOUR RING SIZE

PLEASE NOTE:

- Be sure not to use the option to fit or shrink to page, as you'll need it to be exactly the right size.
- Please ensure you are printing on standard A4 sized paper (210 x 297mm).
- Your ring sizer should measure 160mm in length.

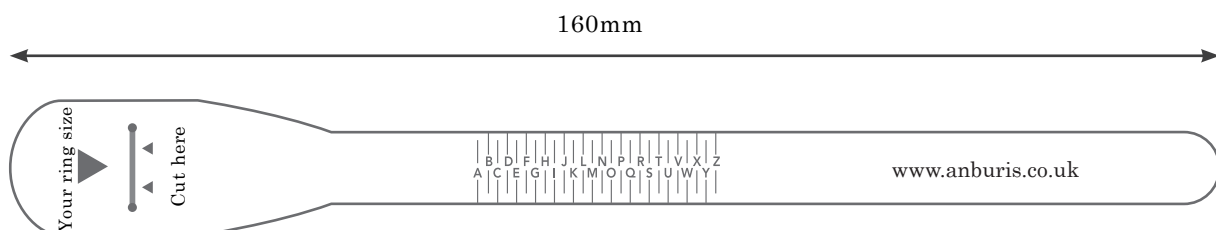

OPTION 1: MEASURE AN EXISTING RING

1. Select an existing ring that fits your desired finger.
2. Place the ring over the circles below until the inside circumference of the ring matches a specific circle.
3. If your ring falls in between two sizes, consider the width of the band. A wider band may require a slightly larger ring size.

OPTION 2: USE RING SIZER TO MEASURE FINGER

1. Print and carefully cut out the below ring sizer.
2. Place the end of the ring sizer through the indicated slit to form a loop.
3. Wrap the loop around your finger with the letters side visible. The letter that appears closest to the slit is your ring size. Double check that the slider can slide from the base of the finger over the knuckle without a problem.

Remember! It's really important that the sizer can slide on and off the finger comfortably and don't pull the sizer tightly - this will give you the wrong size.
