THE STORY OF

In Beirut's bustling heart, nestled amongst souks, lay our haven. Sunlight kissed our workbench, glinting off the brass and silver waiting to be sculpted.

Here, whispers of wood, rich and rare, mingled with the scent of creation. 500 miles refused compromise - only nature's finest, wood and brass became our canvas.

The logo for 500 miles features the number '500' in a large, bold, black serif font. The '0' is stylized with a white dot in the center. To the right of the '0' is the word 'miles' in a smaller, black serif font. A small yellow dot is positioned above the 'i' in 'miles'.

Each creation, a testament to timeless elegance, a legacy built on wood, brass, and the soul of Beirut.

SMOKER 101

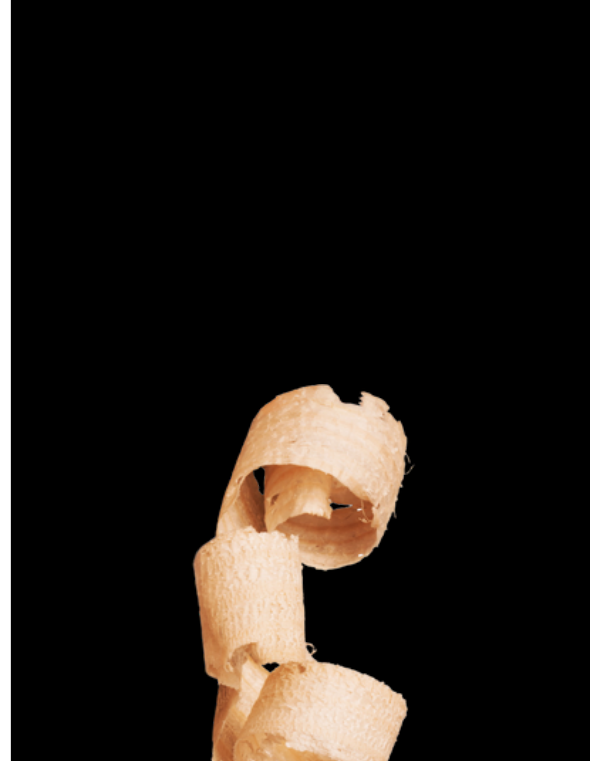

ELEVATE YOUR COCKTAIL EXPERIENCE

A whiskey smoker adds a touch of theatrical flair and complex flavor to your favorite drinks. Here's a quick guide to get you smoking like a pro:

WHAT YOU'LL NEED

- Whiskey smoker (available online or at <https://500-miles.com>)
- Wood chips (different woods offer unique flavor profiles available online or at <https://500-miles.com>)
- Butane torch (ensure it's refilled with butane; available online or at <https://500-miles.com>)
- Your chosen cocktail (ideally in a rocks glass or other suitable container)

STEPS TO SMOKY PERFECTION

Prep the smoker: Place a small pinch of wood chips in the designated chamber of your smoker. Avoid overfilling, as this can restrict smoke flow.

Light it up: Using the butane torch, carefully ignite the wood chips. Aim for a gentle smolder, not a blazing fire.

Smoke it up! Hold the smoker over your chilled cocktail, allowing the smoke to gently infuse the drink. 30–60 seconds is a good starting point, but adjust based on your desired smoke intensity.

Rest and enjoy: Remove the smoker and let the drink sit for a moment. The smoke will settle and mingle with the aromas of your whiskey for a truly captivating experience.
