Carpets

Moulded carpet sets

Our moulded VW carpets are the best fit in the market place... Available in a range of colours. (See chart below)
Our mould tooling was manufactured in house using a Mk2 Golf, 3 door hatchback bodyshell to make our patterns. The handbrake, gearlever, pedal & seat mounting holes are all pre-cut. All heel mats and wear pads are welded in place, as on the factory originals.
We recommend using our new underfelt kit (as shown below), as generally the original felt will have some damage on removal of the old carpet.

Bonnet sound deadening pads

Pre 1992

These bonnet felt kits are made from a material called Hardura, which comprises of a 6mm thick black PVC coated felt, we have used these materials not only because they are long lasting and offer great wear resistance but they also offer a great reduction in external engine noise.

1992 Onwards

CK5636	PRE 1992 (GLUE INCLUDED)
CK5635	1992 ONWARDS (GLUE INCLUDED)

COLOURS – BLACK ONLY

Carpets

Moulded carpet sets

We developed the moulded carpet to fit the contours of your floorplan exactly, made exclusively in the UK in our Suffolk factory from a top quality automotive carpet in available in a variety of colours (see below), its moulded shape makes fitting simple. Supplied with complete pictorial fitting instructions. We recommend you use the sound deadening kit below to achieve the best fit.

Our carpet will fit all MK. I's including the Storm.
