

GOLF MK.I
SALOON REAR PARCEL TRAY LINER

CK5545

The two rubber straps at the rear of the shelf attach to clips located in the roof area above the rear lift up tailgate.

The front of the shelf is attached to the back of the rear seat squab. Customers should re use their metal attachment bar to line up with the holes on the seat squab. When fitted the sides of the shelf lie on top of the two finishers on the rear quarter area. The two extra pieces of carpet supplied with each shelf are to cover these finishers.
