Carpets

Moulded carpet sets

Our moulded VW carpets are the best fit in the market place... Available in a range of colours. (See chart below)
Our mould tooling was manufactured in house using a Mk2 Golf, 3 door hatchback bodyshell to make our patterns. The handbrake, gearlever, pedal & seat mounting holes are all pre-cut. All heel mats and wear pads are welded in place, as on the factory originals.
We recommend using our new underfelt kit (as shown below), as generally the original felt will have some damage on removal of the old carpet.

CK5564	RHD HATCHBACK (3 AND 5 DOOR)
CK5566	LHD HATCHBACK (3 DOOR ONLY)
CK5560	SOUND DEADENING KIT (3 & 5 DOOR)

Please note that this set fits a standard floor pan only, and not the synchro or G60 versions.

Rear wheel arch carpets

These moulded wheel arch covers are an exact replica of your original factory ones. They are ready to fit and if used in conjunction with our rear boot trim, will enhance your boot area considerably.

Rear boot trim

The area behind the rear lights was not originally covered. We have designed a carpeted piece which can be clipped under the tailgate and will hide the washer bottle and rear light clusters.

Tailgate panel

Originally this panel was a plastic moulding. Our replacement is a hardboard panel covered in carpet.

Rear load area carpet / spare wheel board

Made from carpet with a felt backing, this mat will tidy up your boot area. The extra sound deadening is a great bonus too!

Accessories

Gear lever gaiter

Great addition to compliment your new carpet. Made from tough and durable vinyl, you can colour match this to your interior. Why not upgrade to leather for that deluxe look!

BHH5504	VINYL
BHH5505	LEATHER

PLASTIC HOLDER NOT INCLUDED.

A WIDE RANGE OF COLOURS ARE AVAILABLE.

Rear parcel self-assembly

We are the only manufacturer of brand new rear parcel trays. Available in black only, with straps fitted as standard.

Bonnet sound deadening pads

Both of these pads are made from a material called "Hardura" which has a heavy duty PVC skin with a felt backing. We have used these materials not only because they are long lasting and offer great wear resistance but they also offers a slight reduction in external engine noise

Seat Accessories

Foams and diaphragms

A common issue we have come across is sagging and mis-shaped base foams, we have the perfect replacement products for you if this is the case as a direct swap for the originals and made from automotive grade foam.

SF5004	GTI LEFT HAND BOLSTER
SF5005	GTI BASE FOAM
C5500	FRONT SQUAB DIAPHRAM

Supplementary foam repair kit

From experience, we have found that the backrest foams on the front seats do get damaged through wear and tear as well as deteriorating over time. Consequently, we have developed a "supplementary foam repair kit" for the front seats. Instructions are supplied for ease of fitting.

SF5500	INSIDE THE UK (includes glue)
SF5501	OUTSIDE THE UK (excludes glue)

THESE KIT'S ARE FOR BOTH FRONT SEATS
