# A DISTINCTLY PERSONAL TOUCH

Many MGF's so far produced have cloth interiors as standard, you may wish to upgrade your car to have leather upholstery. We use Bridge of Weir's finest Scottish leather and have done for many years because of it's feel and durability.

## MGF MK1 MODELS TRIM KIT

Individually made to order, our interior trim kits for this model have proved very successful not only with MGF owners, but also with MG Dealers worldwide. You choose the design, either 'Classic' as shown here or our 'Icon' design shown below, the colour of the leather and pipings, we then do the rest. We upholster the seats and make all the other items, then ship them to you on an exchange basis for either you or your MG dealer to fit.

### The kit includes:

- A pair of complete seats in exchange including headrests.
- A pair of the door casing pods.
- A leather gear lever gaiter & gear knob.
- A leather handbrake gaiter & black handbrake grip.
- A vinyl hood roll cover to match.

The MGF stands apart as a truly original car. Now, with help from the UK's

leading classic car trim specialist, Newton Commercial, you have the unique

opportunity to take your MGF a step further and make it one of a kind. We

are now able to offer you not only complete

leather trim kits in the colour and design of

your choice, but a whole range of easy to fit accessories that will allow you

to subtly change your MGF to suit your personality. Whilst developing and

testing all these products for the MGF, we have tried only to enhance the

purity of the original concept of the car. With

each product comes a comprehensive

fitting instruction sheet, which allows

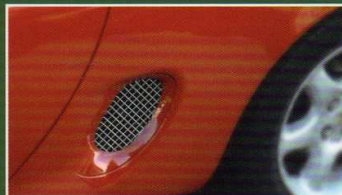

you, the owner, to enjoy fitting the items. If you do not want to fit these

parts yourself, please contact your MG Dealer, who will be more than pleased

to supply and fit them for you. Your Dealer will have all the necessary

information and will no doubt be happy to

assist you. Please feel free to contact us at

any time for advice and help in choosing the items you require.

*Please refer to the back of the price list for all the colours available for items mentioned in this brochure. Various colour swatches are available to help you choose.*

## MGF 2000 MODELS

As for the MK1 models listed on the previous page, we make these kits to your individual specification. We only offer the 'CLASSIC' design for these cars, but we can insert a contrasting piping between the fluted centres and the seat bolsters as well as a matching double line of top stitching on the seat sides.

### Our trim kit for this model includes:

- A pair of complete seats in exchange including headrests.
- A pair of leather door casing pods.
- A leather gear lever gaiter.
- A leather handbrake gaiter.

## MK1 & 2000 MODEL LEATHER SEATS IN EXCHANGE

Enjoy the feel of real leather with our seats which are only made to order and to your colour specification. There are two specifications available:

### Deluxe

Not only are the seat faces and headrests made in leather, but also the side skirts on the base and back. The rear panel with the map pocket is in matching vinyl.

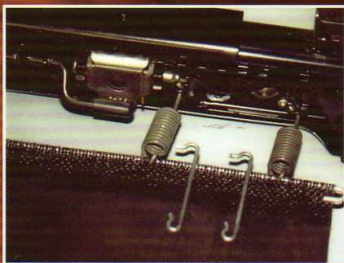

### Budget

A slightly cheaper version in that only the seat faces are in leather and the other parts in matching vinyl. Otherwise exactly the same specification.

## SEAT LOWERING KIT

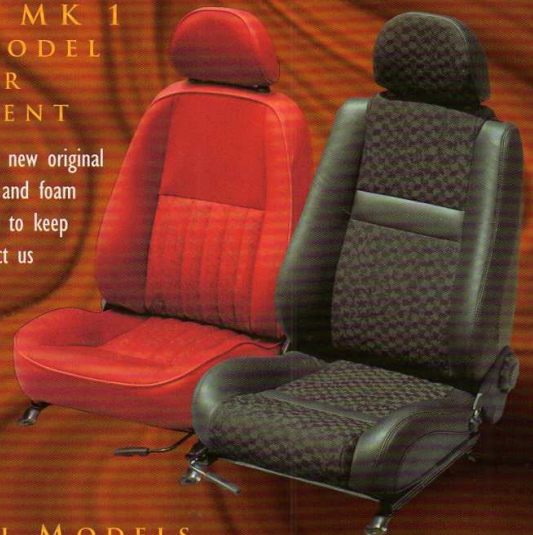

Many tall people have difficulty in sitting comfortably in their MGF. We have devised a very simple and inexpensive method of lowering the base by about half an inch, (12mm). It may not seem a lot, but it can make all the difference.

The kit for both front seats comes with full instructions for you or your MG Dealer to fit.

## ORIGINAL MK1 & 2000 MODEL SEATCOVER REPLACEMENT

We have stocks of brand new original factory cloth seat covers and foam cushions should you wish to keep your MGF original. Contact us for advice on these replacement parts.

## COLOURS AVAILABLE FOR ALL MODELS

Red, Biscuit, Cream, Light Stone Beige, British Racing Green, Grey, Black. Piping colours: Red, Green, Black & Tahiti Blue.

**EXCHANGE SYSTEM** upon receipt of your order we will make the complete seats, despatch them to you and when your old seats are ready for collection, we will arrange to have them picked up from you. Easy!

## LEATHER DOOR PODS ARMREST KIT & DOOR PANEL POCKETS

Replace the cloth on your door panels with soft padded real leather. Sore elbows? Then fit our inexpensive foam padded leather cloth armrests in Ash Grey to match the door panel. Lack of space?

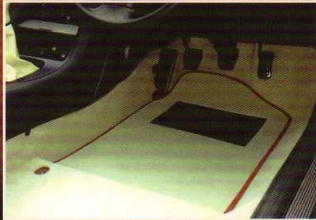

Our pretty door panel pockets give you that little extra storage space.

## CARPET SETS & FOOTWELL OVERMATS

Our coloured carpet sets are moulded to follow the contours of your interior. The kit includes a pair of full length moulded floor carpets, the piece to fit the rear bulkhead behind the seats and a pair of our Footwell over mats. Removal of the seats is necessary, but the whole job should only take you about 2 hours.

No gluing or trimming is required. **Carpet set colours:** Black, Beige, Blue.

Our over mats are made of the highest quality nylon carpets with a non slip crumb rubber backing which also acts as a sound deadening medium. They can be bound round the edges with various colours.

Each mat comes with a fixing system for you to fit in minutes.

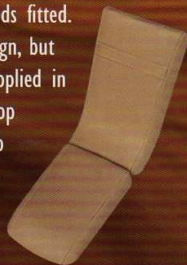

**Mat colours:** Black, Red, Beige, Green.

**Binding colours:** Black, Red, Beige, Blue & Green.

## CENTRE CONSOLE AREA

Most MGF's have the standard plastic "Cubby" box lids fitted. We can offer you brand new lids to the latest design, but with leather covers to suit your needs. They are supplied in a matching set ready assembled (with contrasting top stitching if needed) and all you need to do is undo four screws, fit and rescrew. Takes about 5 minutes.

**Colours available:** Red, Biscuit, Cream, Light Stone Beige, British Racing Green, Grey, Black.

## VENEERED FACIA KITS MK I CARS

Our kits, which are exclusively made for us are made from real Burr Walnut, real Carbon Fibre or real Polished Aluminium. As you can see from the picture, the centre fascia is fully veneered, the air vents are covered and we also supply a piece to cover the door armrest. The kit is easy to fit and after careful preparation of the surfaces to be covered, will last for a life time.

## VENEERED FACIA KITS 2000 MODELS

Made to the same exacting specifications as mentioned above, but designed for the 2000 style dash area. The Burr Walnut kit includes the centre dash area shown, plus pieces for the air intakes and a pair of door capping pieces. The Carbon Fibre and Aluminium kits are the same but without the door capping pieces. These kits take about one hour to fit in conjunction with our instructions.

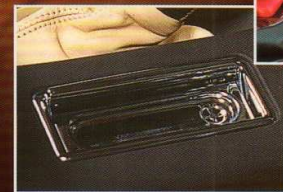

## BURR WALNUT DOOR CAPPING KIT 2000 MODEL

Most 2000 model cars have aluminium design door cappings which is not to everyone's taste. We have developed a very subtle kit to cover the caps in real veneered Burr Walnut. The kit takes about 20 minutes to fit and will transform your interior immediately.

## CHROMED ASHTRAY

Let your individuality shine through replace your plain black ashtray with classic chrome.

## "T" BAR

Let's finish the job off and have a leather covered "T" Bar as well! We offer these items on an exchange system in the UK ready covered for you to fit. Takes about one hour to do. There are two types, one for MK1.1 cars and the other for 2000 models. The latter will fit the earlier cars, but you will need to fit your own speaker system behind the grills.

**Colours available:** Red, Biscuit, Cream, Light Stone Beige, British Racing Green, Grey, Black.

2000 Model "T" Bar

MK.1 "T" Bar

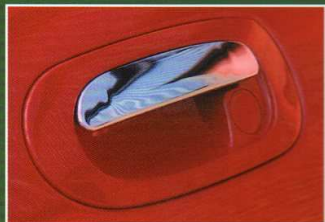

### DOOR SILL PLATES

Keep reminding yourself that your car is really an MG every time you open the door.

### EXTERIOR DOOR HANDLES

These flaps won't make you go any faster, but they do look splendid. The kit includes a pair of outer RHD or LHD door handle assemblies, the outer casing matches your existing body colour whilst the flap is chrome plated. As a second option, we are offering an anodised flap which matches the filler cap.

### POLISHED STAINLESS STEEL GRILLS

We are offering two types of Stainless steel grills that have been used on various MG factory special Edition cars. These are Diamond shape and the Woven mesh design. The choice is yours. Three kits are available:-

a) A two piece front grill kit, b) A full kit containing the front grill pieces and rear Air duct assemblies painted to your car colour and, c) A pair of rear Air duct assemblies, again painted to your car colour. Please state your car body colour when ordering.

Full fitting instructions are included.

### SOMETHING FOR THE MG ENTHUSIAST

It might only be small, but these beautifully crafted aluminium Octagons fitted to the top of your door panel will cause a stir in MG circles. Easy to fit and looks really classy!

### ANODISED AIR DUCTS

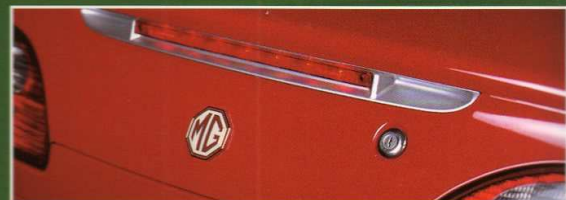

As can be seen here, we retain the black mesh but the air duct itself is anodised to match the wheels or other aluminium look alike products.

# E X T E R I O R A C C E S S O R I E S

### HIGH MOUNTED STOP LAMP KITS

Why not tastefully change the appearance of your MGF? Our anodised rear stop lamp kit looks stunning on all body colours. Even Silver cars! If however, you wish to retain your standard black duct and require a stop lamp, these can be bought separately. If you already have a red stop lamp, and would like an Anodised duct, no problem. If your car does not have ABS brake system fitted and you want a rear stop lamp, you will require one of our Wiring Loom Kits to connect it to the wiring loom. Please see price list for these items.

### HOOD ROLL COVERS

All MGF's produced so far have black hood roll covers fitted as standard. We can now offer you the latest style cover, which is secured at the rear by the boot lid, with colours to match factory leather interiors. These are much easier to fit than the original design, so will be used more often.

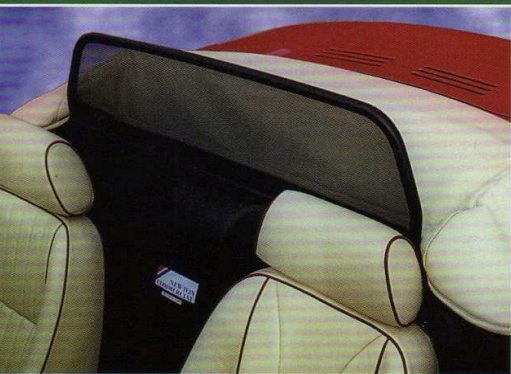

## FULL TONNEAU COVER & HOOD ROLL COVER

The cover is designed with a central full length zip so that you can leave the passenger side attached for "driver only motoring". The unzipped piece folds neatly behind the drivers seat. In August 1997, MG changed the design of the hood roll cover. For cars made before this date, it will be necessary to order the new design hood roll cover with the Tonneau. For cars built after the above date, it is possible to order just the Tonneau in black as it will work in conjunction with your factory hood roll cover. Please see colour chart on the rear of the price list for details.

*Each kit comes with comprehensive fitting instructions.*

## WINDSTOP

Easy to fit and designed to work in conjunction with our Hood Rolls and full Tonneau covers this Windstop really does work whether you are cruising around town or driving flat out.

## DUST COVERS

Many MGF enthusiasts only use their car for recreation, so if it is in the garage all week, why not protect it with a simple cover to keep the dust off?

## LEATHER CLEANER

Ideal for Birthday or Christmas gifts! Beautifully packaged in it's own metal box by Bridge of Weir our Scottish leather supplier. All leather seats suffer from stains and even grease off your clothes. This kit will easily clean the grease off and then apply the Conditioner to keep the leather supple.

## HOOD FABRIC CLEANER

We have chosen the best Cleaner on the market. Manufactured in the USA by Haatz who make the original Factory hooding material, this item even cleans Beige and light coloured fabrics. Full instructions are included in each kit. Highly recommended.

**NEWTON COMMERCIAL** Formed in 1979, in response to demand from classic car enthusiasts for hand crafted, original specification trim, Newton Commercial has grown to become the largest company of its kind in the UK.

Our expertise is recognised world wide and we currently supply all major markets including Europe, Japan, USA, and Australasia.

All Newton Commercial products are designed to original specification and made using approved materials. The Company has a new 20,000 square foot factory in Suffolk where all aspects of cutting, sewing and panel trimming are carried out by skilled craftsmen and women using the latest technology available to our industry.

We currently supply original specification trim for Minis, Morris Minors, MG and Triumph marques to all these major markets.

## BRITISH MOTOR HERITAGE LTD.

(BMH) is the commercial arm of British Motor Industry Heritage Trust, an operating division of BMW Services (UK).

## BRITISH MOTOR HERITAGE SPECIALISTS

In the mid 1980's BMH brought together the major classic car retailers and suppliers to form a group of British Motor Heritage approved specialists.

To qualify for membership, Heritage specialists are put through a stringent selection process, which takes into account everything from financial stability through to customer service.

As such, when you deal with a Heritage approved Company, you are assured of the highest standard of product and service.
