MGB & MGC Windstops

Why do you need a wind deflector in your open topped sports car?? Travelling at anything over 30 mph causes a slipstream over the car which after passing over the windscreen, returns and hits you in the back of the head & your neck! This can ruin your hairstyle, buffet your eardrums resulting in a headache on a long journey or give you a stiff neck. – or all of these!

A Windstop (or wind deflector) will drastically reduce all of these effects, to the point where open top motoring becomes a pleasure again.

Our Wind deflectors are made from **leather** covered tubular steel (not PVC covered) and has a very fine, robust mesh suspended across the inside of the frame. This mesh provides a draught proof barrier behind the occupants **but** still allows the driver to see the view behind, using the rear view mirror.

Fitting our Wind deflector is pretty easy too – no holes need to be drilled – our brackets fit using holes already in the bodywork. Once fitted, our Windstop is easy to remove from the brackets so that it can be stored either in the boot or in your garage.

Hoods can be raised and lowered with our Wind deflector in place.

The Wind deflector is secured to the bracket system by hand wheels for easy removal.

Full pictorial fitting instructions are included with each kit.

If our colour range (see below) does not match your interior, we do have other colours available so please enquire with our sales team who can send samples for your approval.

Part no. VT8017

COLOURS AVAILABLE

**BLACK – CREAM – BRITISH RACING GREEN – AUTUMN LEAF – RED – NAVY –
DOVE GREY – MAGNOLIA - BISCUIT**

MGB & MGC Deluxe Overmats

Mk1 – Up to 1968

Mk11 on (1968 - 80)

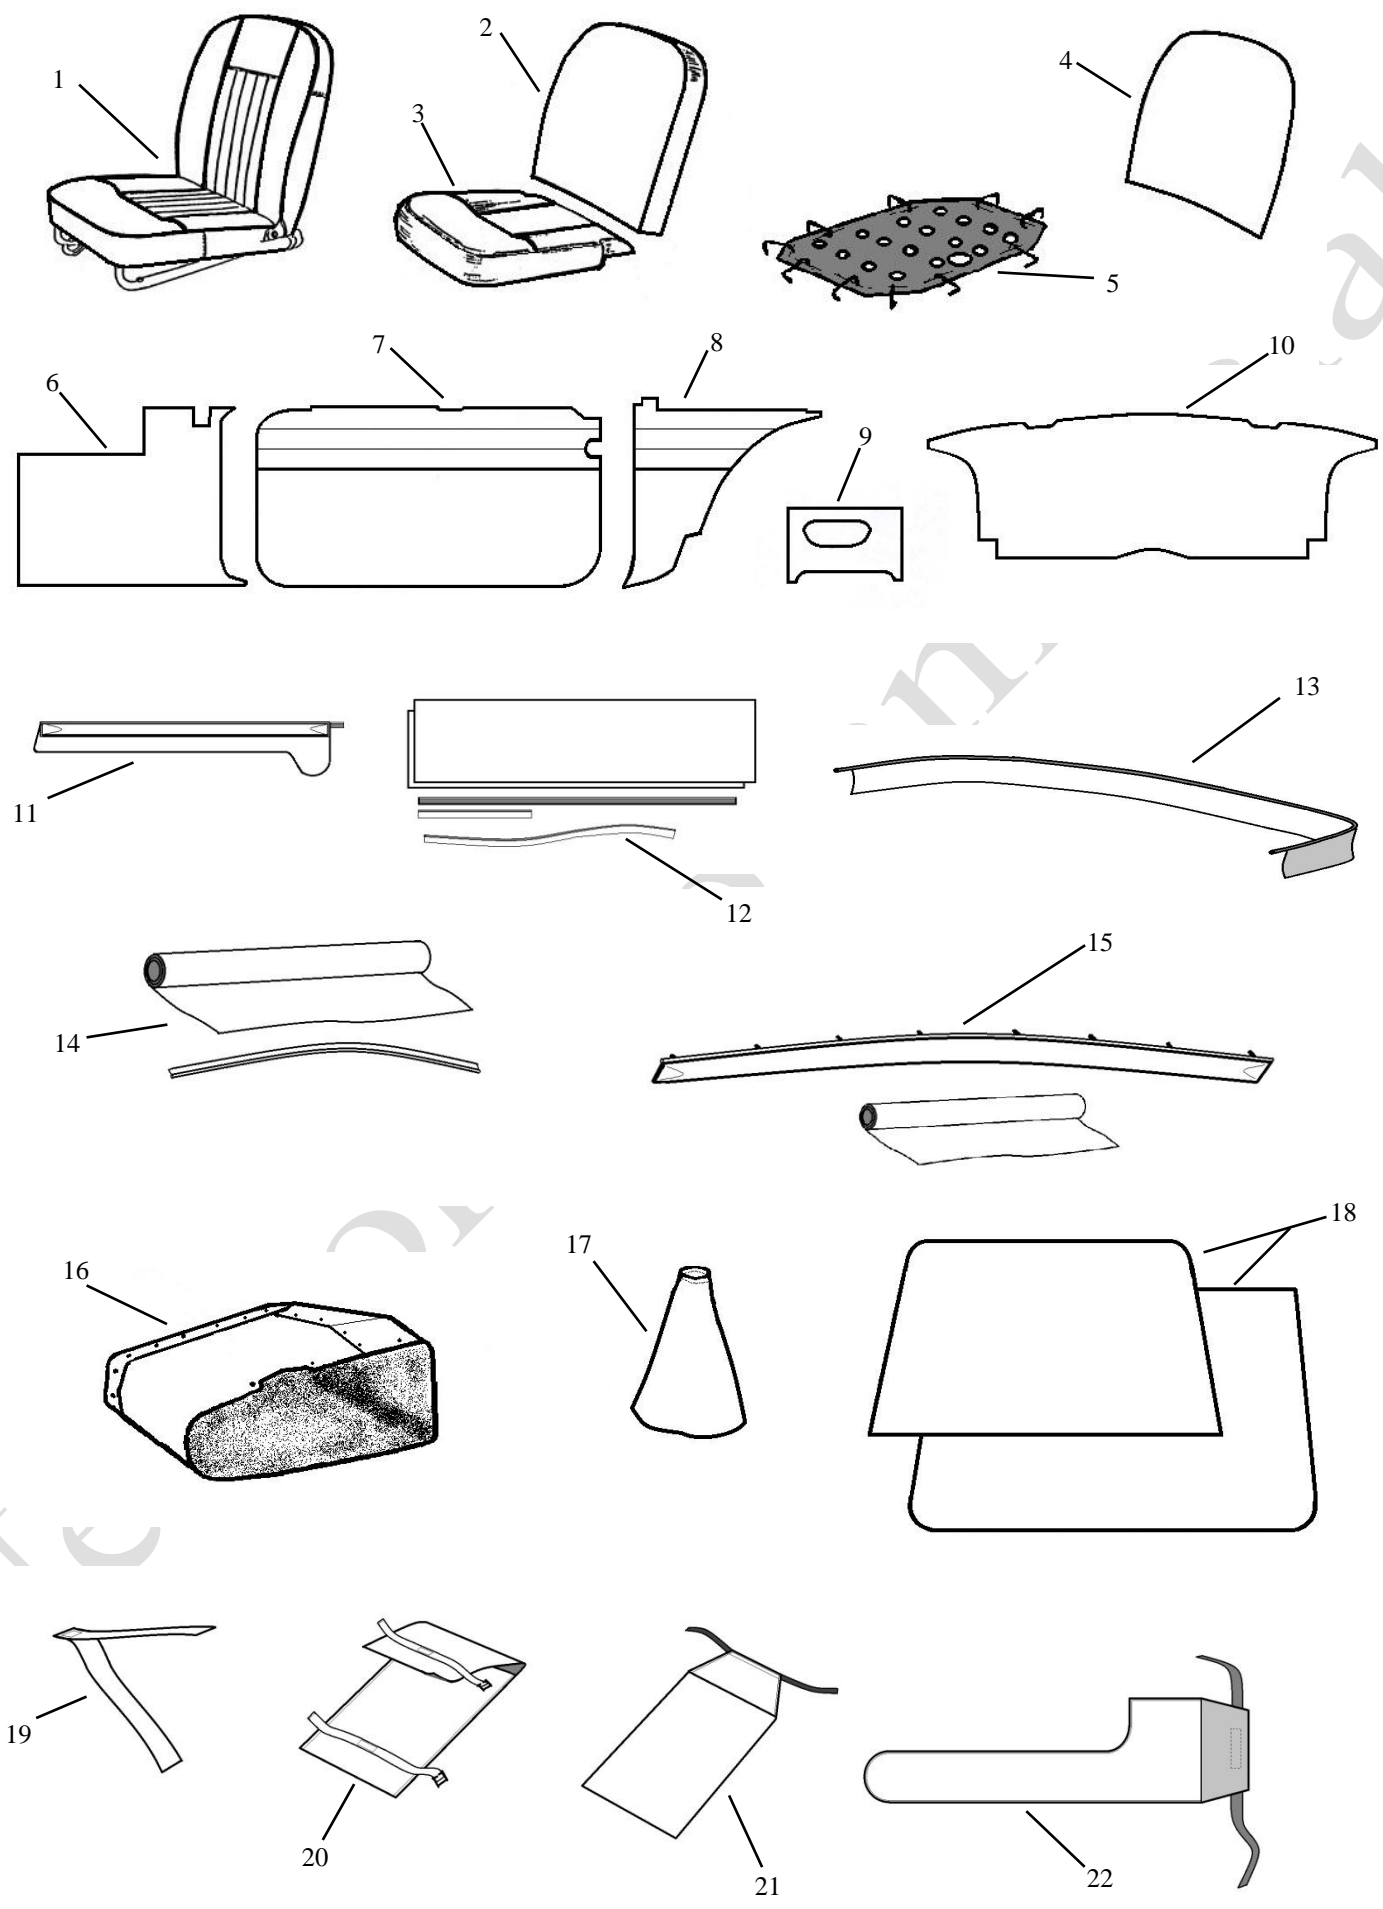

British Motor Heritage and Newton Commercial have joined forces to launch a high quality range of tailored over mats for British cars. Uniquely available with the embroidered marque logos proudly displayed on the mat, they add to the interior ambiance of any classic car. The tailored design ensures a good fit to the contours of the footwell, and proper protection for the main floor mats. Fitted with non-slip crumb backing for secure installation, they are simple to remove for ease of cleaning.

All mats can be ordered with a choice of black, red, grey, blue or British racing green binding.

PLEASE NOTE

**The original style “Deck Chair” cloth seat covers for this model are no longer available.
Please see the next page for alternative options**

NOTE* Headrests – see chart on Page 27 for all part numbers.

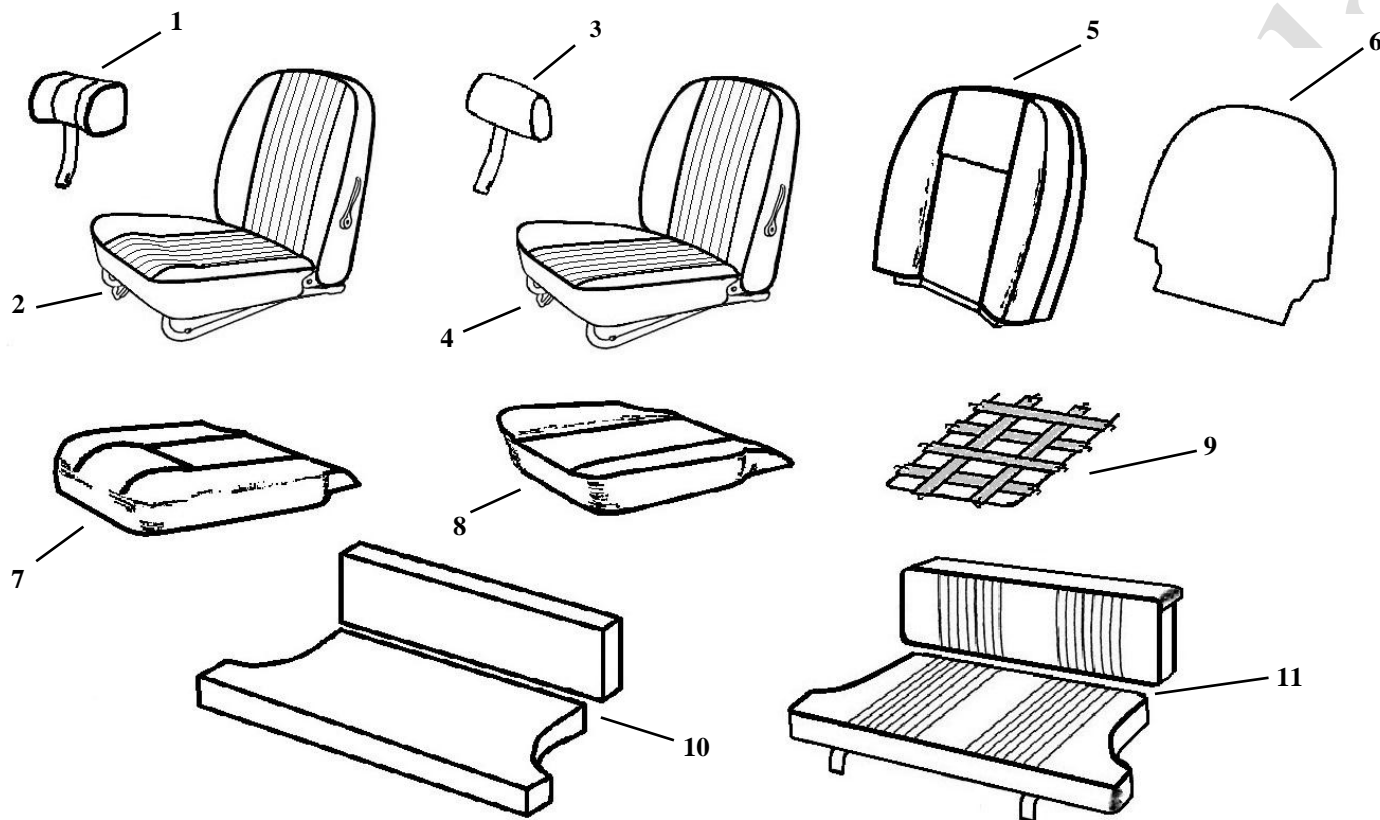

SPECIAL SEAT KITS – 1970 - 80

These vertically fluted seat covers were originally designed to offer a more traditional replacement for the “Deck Chair” cloth (which has been unavailable for a number of years) seats used on the Mk1V MGB (1976 – 80). The range was extended to include the “Humpy” base seats of the 1970 – 76 era.

We offer matching rear seat (For GT models) and headrest covers as well as a complete headrest assembly, if required.

The reclining seat frames remained essentially unchanged throughout this period, so the customer may choose either the flat or “humpy” style front base. All covers are offered in Leather or Vinyl.

Colours available: - Black, Autumn Leaf, Navy & Biscuit. Please enquire for others.

SPECIAL DOOR PANELS & TRIM KITS

These door panels & kits are offered to provide an alternative design for all cars from 1970 on (i.e. where the door panel fixings were plastic clips located in keyhole shaped holes in the door panel board) – This includes new BMH bodysells. The door panels & rear wheel arch panels feature the twin piped design of the Mk 11 cars.

TK122	GT – 6 PIECE TRIM KIT	

NEWTON COMMERCIAL CARPET SETS

Our carpet sets are made using original specification materials. The centre tunnel & GT wheel arch carpets are moulded to shape for a perfect fit. The carpeted toeboards in the front footwell area have a fibreboard backing. The edges are bound, as are those of the front and rear floor mats, all as original. Our Roadster sets cover the complete cockpit area but do NOT include the boot (Trunk) (These kits are available separately), whereas the GT sets include the cockpit plus the rear load area. Each carpet set comes complete with full fitting instructions and a kit of floor fixing studs & carpet clips.

COLOURS AVAILABLE – ALL CARPET SETS BLACK, NAVY, RED, AUTUMN LEAF & BISCUIT
