### Why Buy Newton?

With over 40 years of experience, Newton Commercial are world leaders in interior trim, producing high quality products for all your interior upholstery needs. Our expertise and commitment to quality manufacturing is highlighted by our British Motor Heritage approval and we are the only trimmers in the world with this unique quality status. Using our expertise and knowledge in the classic car industry, we have developed a complete range of products for the TR range and have been supplying industry leaders within the British classic car sector for a number of years.

They choose us because of our ability to provide high quality original styled interior trim handcrafted by our team of skilled professionals across our three sites in Suffolk, highlighting British manufacturing at its best. We have sourced original materials, correct to the original colour and grain of those used from the factory, perfect for those who are looking to reupholster their TR to its original glory. Our materials are sourced within the UK, and we pride ourselves on sourcing high quality automotive grade vinyl, leathers and carpet as close as possible to the original materials used in first production. Using original trim, we have researched and developed products that are produced as they were originally. Our panels are made using the correct thickness board, cut to the correct size and shape in our onsite Suffolk factory using precision tooling to produce the same high quality every time. Using our high frequency welding machine, we can create interior trim exactly as the original Triumph vehicles to the high quality you expect of British classics. For those who are looking for the complete interior package, we have our range of Suffolk reclining seats designed to be sympathetic to the original styling of the Triumph interiors.

Our aftermarket sales care is second to none and we provide a standard six month returns policy on all products returned in their original state. With our expertise and knowledge, we are able to offer technical help for all your purchasing and fitting needs. This catalogue will help you explore the TR4-6 range, but our sales team are always on hand for more specific advice, quotations, and free material samples. Our customer service team can help with any issues you may have, using our years of experience in interior trim from development to production.

## Carpets

Our Porsche 911/912 carpets are made to original the specifications as they were when they came out of the factory. The 17 piece kits are made either from the original wool based material called "Salt n Pepper" due to the white flecks in the carpet or the later Perlon examples. These kits include all driver's side heel mats, leather footwell fixing straps and pedal grommets, all relevant parts are also bound as they would have been originally.

SALT AND PEPPER OEM CARPET
