RENAULT 5

Carpets

Our long-awaited Renault 5 carpet sets are finally here! We developed the Moulded carpet to fit exactly the contours of your floorplan, made exclusively in the UK in our Suffolk factory from our modern needle punch nylon carpet. We can also offer an OEM style red carpet with a matching red heelmat, to further increase the original authenticity. With these being moulded the fitting is simple.

We supply fitting instructions for ease of fitting. A fitting kit is included with the carpet set which allows for the best finish and fit. A front footwell underfelt kit is also available for those not replacing the main carpet.
