Complete Seats

We developed our brand new reclining seats with comfort, safety and style in mind. These seats benefit from extra lateral support, and a 7" front to back travel on seat slides, fully adjustable modern reclining mechanism and a twin post headrest for added safety.

You can customise these seats with your choice of colour, fabric, including some original cloths such as Westfalia and Inca. You can opt for our top of the range GT seat with added base side roll support or our captain seat with brilliant captain arms. Subframes are simply bolted to your floor pan in minutes and the squab (back) can be fully folded down for extra space when camping. Driving a camper has never been so much fun.
