

**VW GOLF MK.II
TAILGATE TRIM PANEL IN CARPET
CK5544**

FITTING INSTRUCTIONS

Tools required – Philips screwdriver – Electric drill & 3mm bit - Bradawl or spike

You will see 5 large holes cut out of the curved side of the board. These are to accept the metal clips supplied. You can turn them through 180 degrees to align with the holes in the tailgate. Offer the panel up and press into place until it is in the correct position. In the picture here you can see 5 small holes. You need to locate these holes through the carpet then drill the tailgate to accept the screws supplied.
All done ---Happy Motoring.
