Product Description

Nest Cam tells you more about what's going on inside. Google Home app required. Better phone alerts, built in. With intelligent alerts, Nest Cam can tell the difference between a person, vehicle, and an animal. Get alerted about things that matter to you. Know what's happening, 24/7. You can check in on your home from anywhere with 24/7 1080p HDR video.² Plus, you also get 3 hours of video history on us. Designed for any home. Nest Cam is thoughtfully designed to fit in with any home decor. It even has a built-in stand that can be mounted on a wall. Your video is safer with Google. Enhanced security through your Google Account, encrypted video and status indicating LEDs help protect your privacy. Better phone alerts, built in. Did the dog walker close the door? Have your guests arrived? Nest Cam gives you different alerts for different types of activity. Know what's happening, 24/7. Check up on things, talk to people who you care about and see a fuller picture in clear 1080p HD video - day or night. Upgrade to Nest Aware for enhanced smart security. Nest Aware is a subscription service¹ that helps you get more out of your Nest Cam. Expand your video history. Get more days of event video history clips or 10 days of 24/7 video history. Get one price for your whole home. Subscribe for just £5 and cover all your Nest cameras, speakers and displays. Designed for any home. Nest Cam is designed to fit in with any style. Your video is safer with Google. With Nest Cam, your privacy comes first. Feel safe knowing that your information is protected using advanced security. Enhanced security with a Google Account. Get automatic protection and tools like suspicious activity detection, Security Check-Up and two-step verification. Safe and secure video. Your camera's video is protected by AES 128-bit video encryption. Always know when it's active. The green status LED light lets you know when the camera is processing or streaming video. Automatically turn your camera on or off. Home and Away routines can turn your camera off when you're at home so that no video is streamed or recorded until you leave.
