

JVA Perimeter Patrol Interface

PAE212

Overview:

The JVA Perimeter Patrol Interface provides Ethernet connectivity between Perimeter Patrol and up-to 14 Z-Series Energizers or Monitors. The introduction of Ethernet connectivity reduces unsightly wiring by utilizing the existing building network to connect Perimeter Patrol to the Energisers. This also expands the number of Energisers Perimeter Patrol can monitor/control from 15 to 100 with all Energisers synchronized.

The JVA Web Server allows you to remote control your electric fence from:

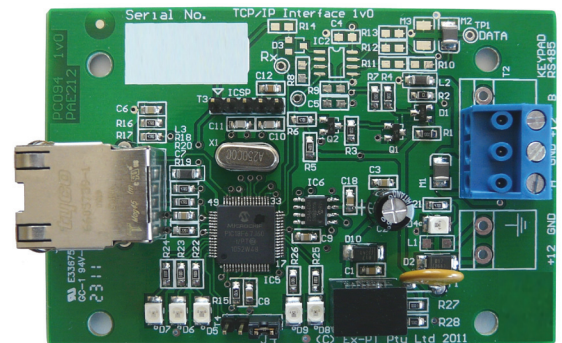

- Perimeter Patrol over your existing local area network (LAN)

Benefits:

- PC based control and monitoring
- Utilises Ethernet wiring for the PC connection
- Powered from the Z-Series Energiser Keypad bus
- Can be placed inside a Z-Series Energiser Enclosure

Specifications:

Connection	Ethernet: Energiser:	RJ-45 Jack Keypad Bus
Size	Height: Width: Depth:	120 mm 90 mm 25 mm
Weight	Product: Packed:	50 g 80 g

Warranty:

3 Year Manufacturer Warranty (excluding lightning damage)
