### QUICK TIPS!

Torsion Spring Regular Maintenance  
It is normal the lubricant on SpicePilot Adapter's Torsion Spring may evaporate over time and create noise while riding SpiceSkate™. To reduce noise level, simply spray lube such as WD-40 with a straw directly on the hole as illustrated.

**⚠ WARNING**

Always check and make sure the kingpin, bolts and nuts are securely tightened before use!

**Disclaimer**

Surfskating / Skateboarding is one of the extreme sports that requires wearing safety equipment at all times, including but not limited to protective helmet, elbow pads, knee pads, etc. The sport's related accidents can cause serious injury and/or death. Always watch out for vehicles on the road while riding and follow all pedestrian rules. Always ensure your equipment and protective gear are in proper working condition before playing the sport. Always remain calm and call emergency hotline for medical assistance if you are involved in, or witness, a surfskating / skateboarding related accident. It is critically important to remain calm and collected in emergency situations.
