

THE WASTE BATTERIES AND ACCUMULATORS REGULATIONS

Under the Waste Battery Regulations, e-cigilicious are now offering a take back scheme for all portable waste batteries.

You can return your waste batteries to our shop premises in person:

e-cigilicious, 2-4 Royal Arcade, Cardiff, CF10 1AE

OR

91A Whiteladies Road, Bristol, BS8 2NT. **(Please do not post)**

Alternatively, you can find your local waste portable battery recycling facility at www.recyclenow.com

Most supermarkets and shops that sell batteries will have collection bins for used batteries, and some town halls, libraries or schools may also set up collection points. End-users may find stores in their local area more accessible.
