VERSE 1

Let's gather together and celebrate
Let's rise up for the human race
We are peace and peace unifies
We are love and love ripples wide

CHORUS

Let's celebrate with joyful fun
Let's celebrate we are one
Let's celebrate this moment in time
Let's celebrate and shine

VERSE 2

Let's share a smile with new friends we see
Let's help one another just be
We are kind and our hearts are true
We do all things with gratitude
