Product Specification

Polymer power bank
Victor K6

Before using this product, please read this product specification carefully and keep it properly.

Product features

- Portable: Polymer battery is light in weight and small in volume.
- Anti-explosion: Polymer battery is made with soft aluminum.
- Safe protection: Intelligently protective chip is equipped to provide overcharge, over-discharge, short circuit, multi-level hardware and software protection.
- Compatibility: This product can be used to charge the digital product whose input voltage is 5V or supports QC2.0.
- Executive standards: GB 4943.1-2011 & GB 5296.2-2008 & GB/T16287-2000.

Specification parameters

Model	Victor K6
Capacity	2000mAh/7.4Wh
Input	5V/2A(MAX)
Output	Out1: 5V/2.4A , 9V/2A, 12V/1.5A Out2: 5V/2.4A
Dimension	170×107×17mm
Weight	424g
Power display	4 indicator lights are on : 75% ~ 100%
	3 indicator lights are on : 50% ~ 75%
	2 indicator lights are on : 25% ~ 50%
	1 indicator light is on : 0% ~ 25%

Operating instructions

1. Charge the power bank

- Take one micro usb cable, plug the micro usb port to the power bank (IN) and connect the usb port to AC adapter, then start charging.
- During charging, the blinking indicators indicate the capacity that power bank holds, and 4 indicators keep bright after full charging.
- Charging time: About 13 hours by 2A input.

2. Charge digital product

- This product can be used to charge the digital product whose input voltage is 5V or supports QC2.0.
- Please use the usb charge cable compatible with the digital product. Then connect the power bank and the digital product via the usb charge cable. Press the power button of the power bank, the indicators keep bright, which indicates being charging.
- When the digital product which supports QC 2.0 is charged, the QC 2.0 indicator light will be on.

3. LED flashlight

- Double-click the power button, the LED light keeps bright; Again double-click the power button, the LED light turns off.

Maintenance

- Storage temperature range: -20°C ~ 60°C 40%RH ~ 85%HR.
- Use temperature range: -10°C ~ 50°C 45%RH ~ 85%HR.
- After the product power is used up, please charge the product in time. Please don't store the product without power so as to prevent it from entering over-discharge protection mode and affect its normal use.
- When mobile phone or other digital products cannot be charged, please remove the problems according to the following methods:
 1. Check whether the charging voltage of mobile phone or other digital products is within 4.75 ~ 5.25V.
 2. Check whether the power of this product has been used up.
 3. Check whether each plug is connected well.
 4. Try to replace Micro charging cable.
 5. If follow the operations above, the problems are still not solved, please contact customer service center.
- When this product cannot be charged, please remove the problems according to the following methods:
 1. Check whether wall outlet or extension socket has been connected with mains supply.
 2. Check whether the output voltage of USB charger is within 4.75 ~ 5.25V.
 3. Check whether the power of this product has been used up.

4. Check whether the power of this product is full.
5. Check whether each plug is connected well.
6. Try to replace Micro charging cable.
7. Try to replace USB charger.
8. If follow the operations above, the problems are still not solved, please contact customer service center.

Notes

- Don't throw this product into fire or heat .
- Don't throw this product into water. Please keep it dry.
- Don't disassemble and assemble this product.
- Don't throw this product into waste bin directly.
- Please place this product in the place where it is not reached by children.
- Before using this product, please check whether its voltage coincide with your devices.
- When this product is not used, please remove charger and charging cable in time.
- During use, please don't cover or pack this product with paper or other items so as to affect heat dissipation of the product.
- When this product has any peculiar smell or abnormal sound, please stop using it. Place it in the place where it is away from person and other items, and then contact customer service center.
