Roomscapes Panels from Community Playthings connect with furniture -- with Roomscapes posts -- to define learning areas or zones.

Clear Panels absorb sound, while enhancing interaction without impeding supervision. Translucent they allow for more light for an airy, open look to your space.

Solid Panels clearly define spaces and block distractions, with the warm glow of natural wood.

Bulletin Panels are covered with a soft fuzzy fabric for displaying materials or attaching Backing Covers.

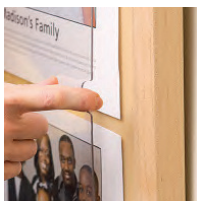

Covers for Bulletin Panels or Furniture

These covers easily attach to the fuzzy, hook fastener (e.g. Velcro, Veltex etc.) accepting surface that is on Bulletin Panels and on most Community Playthings Shelves*, Totes, Cubbies, and Library Shelves.

This innovative design element to Community Playthings furnishings make all sides functional.

Turning potential dead space created by the back furniture like a cubby or tote storage into opportunity to honour children's work, prompt interaction or inspire learning at a child's eye level.

Clear

Display and protect children's artwork, visual schedules, vocabulary, invitations and so much more. Made of tough clear plastic, for decades of tearfree service.

Mirror

Acrylic mirror, adds light or provokes examinations of symmetry, space volume. Great in science, block or art area.

Chalkboard

Use in any learning area for spontaneous expressions by children or inspirations, or instructions from adults.

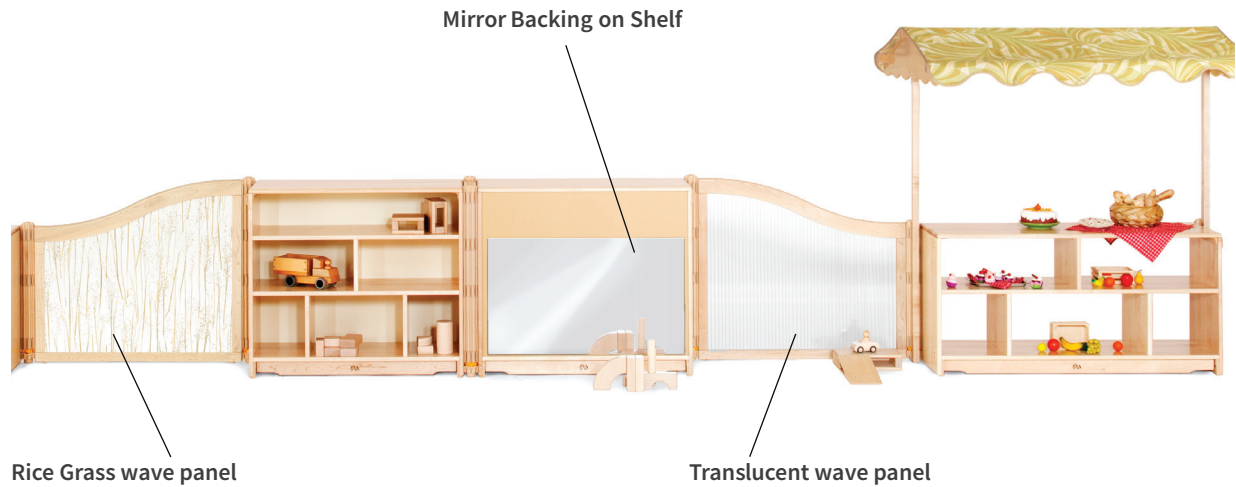

* NOTE: Translucent shelves, Open Back and Closed Back Shelves for Montessori (077-F441, F443, F411, F442) do NOT have fuzzy backing for panel covers.

*Felt shapes attach without adhesives or pins on the fuzzy back of a shelf.
(Pirurviapik Childcare Centre, Ottawa)*

*This Roomscapes shelf, connects with the gate to separate an entry/transition area. The clear backing on the shelf secures and protects important visuals.
(Centennial College Childcare Centre, Toronto)*

Backing Covers for Cubbies

Cubbies welcome children with an organized, inviting space of their own. Free-standing, their fuzzy hook adhesive accepting backs create useable space when not against a wall. Add art and visuals directly or use as a creative space with the mirrors, chalkboard. For protected displaying attach the clear cover.
