

Infant Toddler Mixed Use Area

A versatile practical room for infants and toddlers with plenty of flexible, open floor space.

The curved storage is inviting and at just the right height for standing and balancing. MultiTables and Childshape chairs are ideal because they are easy to stack and store when not in use.

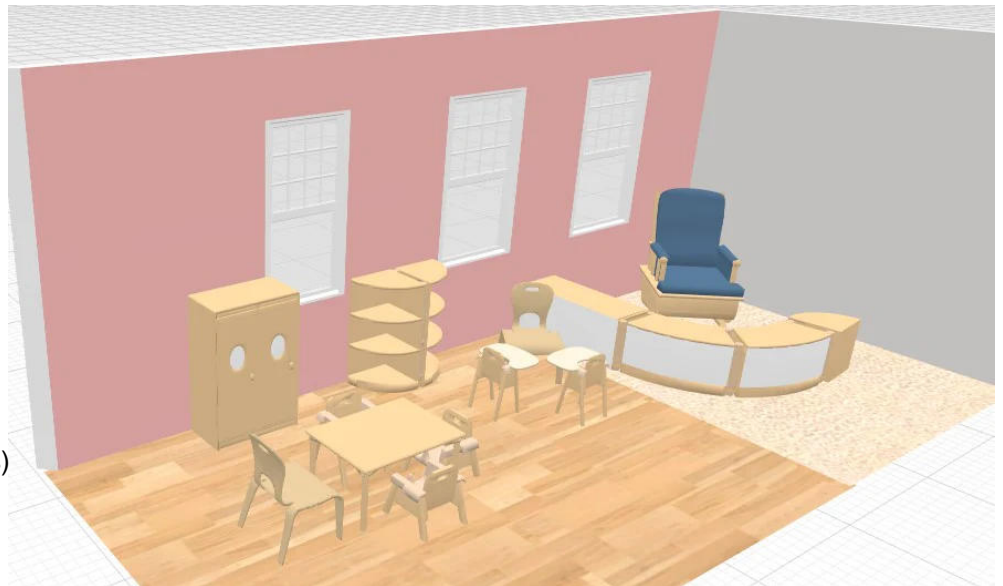

The translucent shelf backs make objects more intriguing while imbuing the space with a light and airy feel. Versatile Childshape chairs with detachable trays/inserts and seatbelts adapt to each child's needs.

So important for any infant/toddler area, Community Playthings furniture has many clever design features that ease clean-up and sanitation:

- Glider cushions are secured with snaps but are removable for clean-up and reversible to extend life
- Chair trays and inserts are dishwasher safe
- Tables' heat-sealed edging is waterproofed to keep moisture out

Fillers (not shown in renderings)
