

# Storage, Benches & Crates - Outdoor Classroom

Louise  
KOOL & GALT

Extending your classroom outside connects children with the natural environment on a daily basis. This area is flexible, adaptable for circle time, loose parts play, block play, gardening and more.

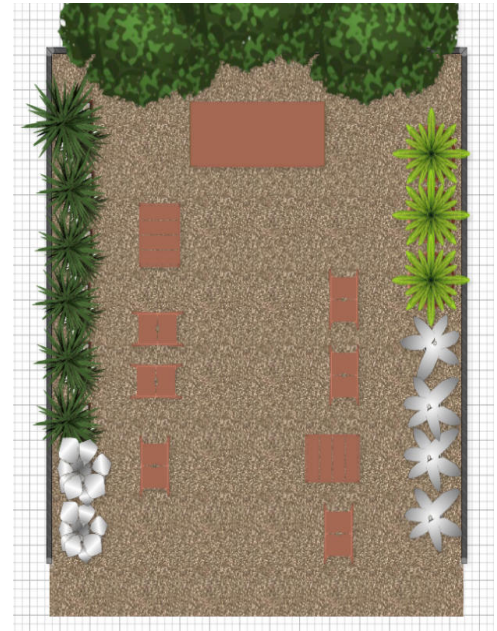

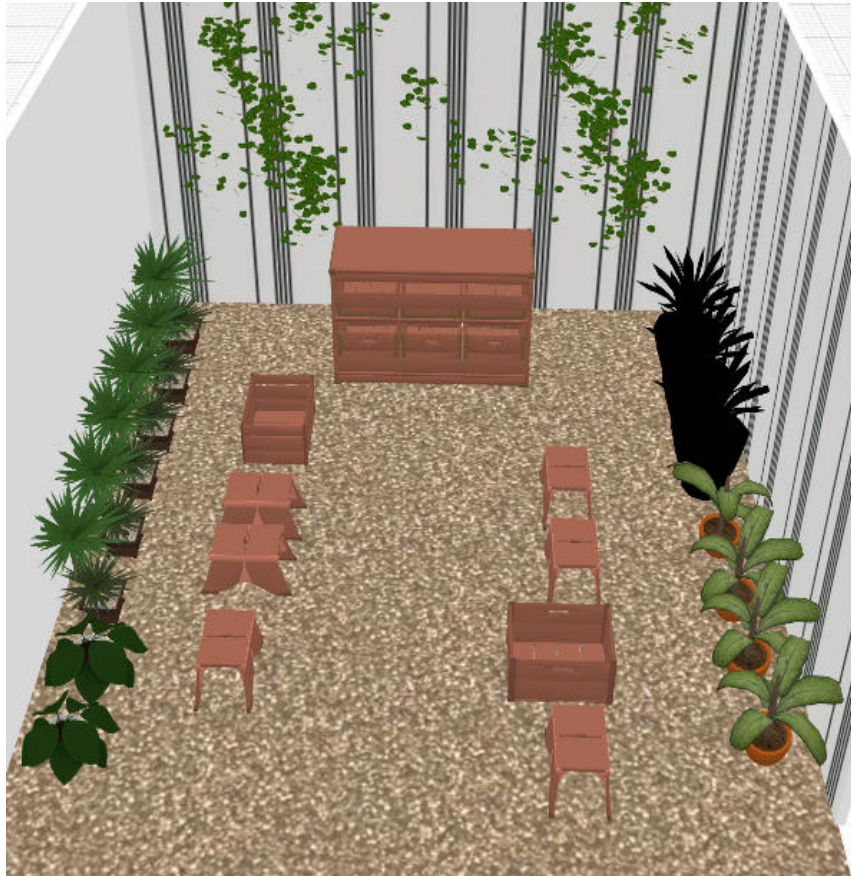

Extremely durable child size blocks, and furniture made from weatherproof wood, Outlast transforms a cozy space into an active engaging learning area.

The **Outlast Sandbox Storage Shelf & Crates** provide a beautiful, durable solution to storing and organizing sand toys and loose parts outdoors. Child-height shelves and Crates enable children to learn valuable cleanup and organizational skills. The tops tongue-and-groove construction create a smooth surface for writing and drawing.

**Outlast Crates** are not just for storage - the modular dimensions allow for many creative uses combined with other Outlast products: space stations, towers, ball and water runs... Slatted bottom keeps sand, dirt, and water from accumulating.

**Outlast Benches** - With their rugged and durable construction, these benches are a natural addition to your outdoor play area. Easily movable, they serve as loose parts inspiring creative, active play. The stable design won't tip even when used as a balancing beam.

**Outlast Blocks** life-size, open-ended outdoor blocks invite children to build their own outdoor play structures, creatively activating large muscles. The unique interlocking knobs and holes connect ramps, blocks and even water pans securely and easily for stable structures on uneven ground.
