

Turn Cubetto into a drawing bot.

Material

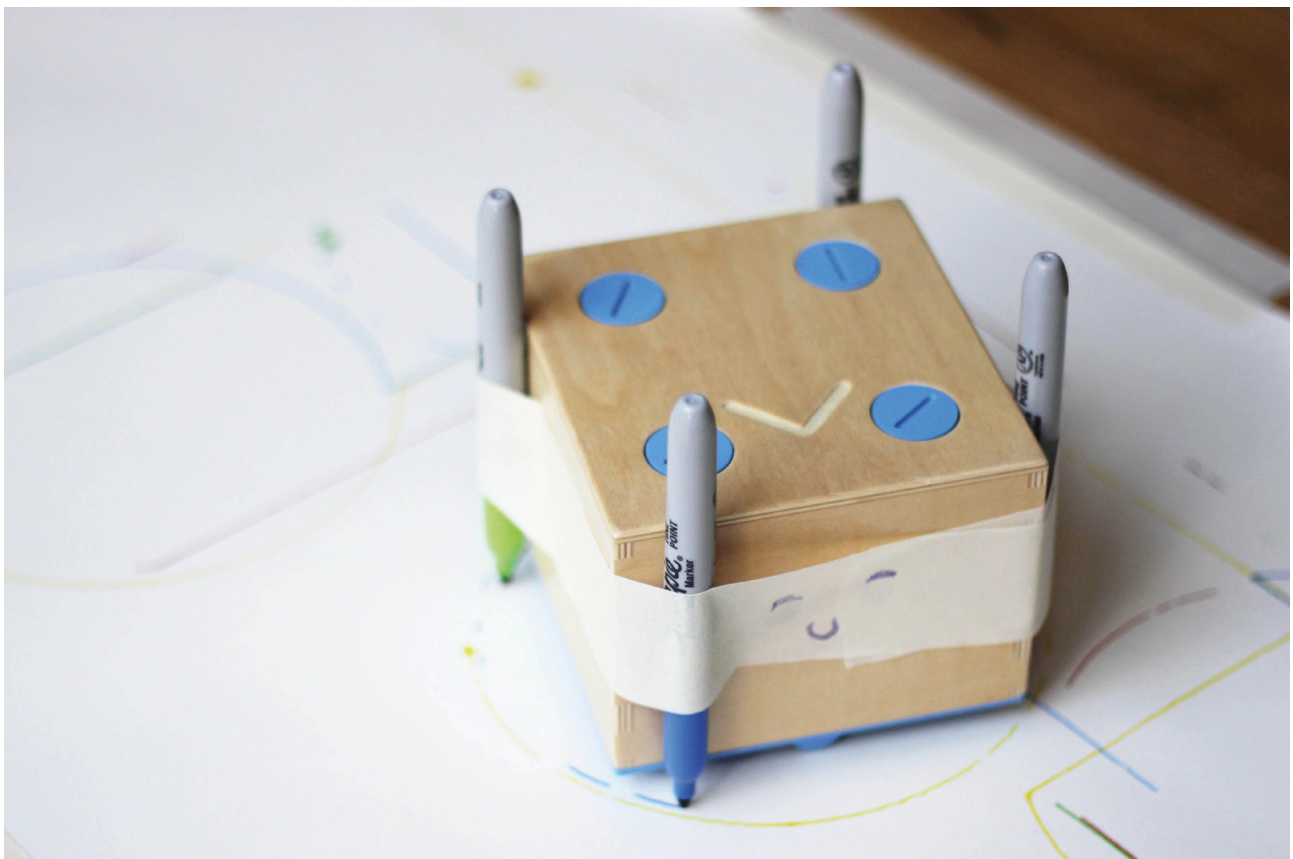

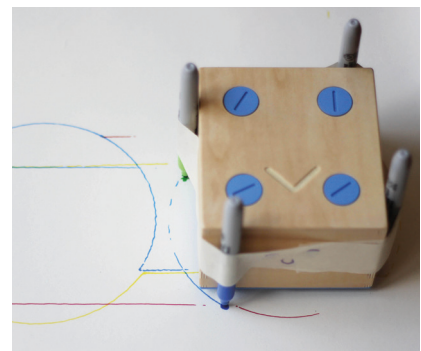

- 1 large sheet of paper
- Markers or pens
- Masking tape
- Scissors

Time

10 minutes

Difficulty

Easy

Instructions

Step 1

Cut a large sheet of paper for your background. If need be tape the corners down.

Step 2

Choose a few of your favourite colours and tape markers to Cubetto.

Step 3

Place Cubetto on the sheet of paper. Make sure the markers touch the paper.

Step 4

Now write a program. To stay on the paper you can use a ruler to move him 15 cm at a time

Step 5

You can move him as much or as little as you like. Try making a circle, and a square.
