Natural Ingredients

We use pure and natural ingredients that are sourced from renewable & sustainable resources throughout the world.

Pet Friendly

We believe your space should be welcoming and inviting to all walks of life, including your furry friends.

100% Vegan

We are committed to creating cruelty-free products. Our products never have been, and never will be tested on animals.

No Harmful Additives

Our Oils are free of SLS, SLES, PEGS, glycols, petrochemicals and other harmful additives.

Paraben Free

Your health and wellness matter. We've ensured zero parabens in all of our essential & aroma oils.

Enhance Your Atmosphere

Discover the Power of Scenting

Scent is memorable and powerful. You already express your personality and tastes through colors, style, music and art. Now you can add your favorite essential and aroma oils using the most advanced scent technology, to design this dimension of your space. The AroMini will forever change the way you use scent in your home or business.

With the AroMini, you can create and control an exquisite scent experience adjusted to perfectly match the size and conditions of a room and, of course, your personal taste.

The AroMini houses cold-air diffusion technology to provide the most subtle and consistent scented environment while preserving the integrity of your 100% Essential Oils and creating a unique and memorable experience.

Dry diffusion is an easy and heat free way to diffuse AromaTech's essential and aroma oil blends. AromaTech diffusers elevate your well being by releasing nano-particles and purify the air while dispersing beneficial essential oil molecules. Ideal for creating a unique and inviting ambiance in your home or business.

Features

- Revolutionary Nebulizing Technology
- 120ml of oil lasts up to 3 months
- Uniform and consistent scent day after day
- Constructed from recycled aluminum
- Adjustable scent intensity 24/7
- Compatible with BT Module
- Whisper-quiet operation
- No water
- No heat
- No residue

Specifications

PRODUCT NAME	AROMINI
COVERAGE	1,000 SQ.FT
OIL CAPACITY	120ML/4OZ
REFILL	1-2 MONTHS
CONSUMPTION	0.5ML PER HOUR
DIMENSIONS	3.4"W X 11"H
WEIGHT	2.5LBS
INPUT VOLTAGE	110-240V AC
OUTPUT VOLTAGE	12V DC

Technology

The scent is diffused through nebulization, a process that breaks down fragrance oil into a very fine dry mist. This preserves the intention behind your essential oil blends and their olfactive and therapeutic powers without diluting the oil in water, heating it or adding solvent to it.

This nebulizing technology, combined with an essential or aroma oil blend, produces nano-particles that suspend in the air for several hours while providing the benefit of therapeutic use of essential oils or simply enhancing your ambiance.

Diffusing helps to reduce dust, pet dander allergens, and other airborne allergens from non-living matter (e.g. dust mite matter allergens) while AromaTech's 100% all natural diffuser blends bring nature's goodness into your space by supporting harmony and balance.

Using only AromaTech essential and aroma oil blends will guarantee the best performance of your diffuser. No mixing or diluting with water, carrier oils or alcohol is required. Simply fill the bottle with what nature created and enjoy!

Diagram of Parts

Where to Place

APPLICATIONS

Aromatherapy, ambient scenting and odor control.

LOCATION

The AroMini is designed to be used as a table-top or a shelf-top unit.

SCENTING COVERAGE

The AroMini can be adjusted to scent an area ranging from 10 to 1,000 sq.ft. (1 to 92 sq.m)

SCENT INTENSITY

Adjust your scenting experience with the scent intensity dial on the power adaptor. Optional BT Module can be purchased on aromatechscents.com

DEVICE LOCATION

The most important element of your scenting experience is to properly position the device in the room, to ensure optimal performance and control.

Our Placement Suggestions

- Choose the location where the aroma oil molecules can use the natural airflow in a room. This is particularly important with air-conditioned spaces. The best location for the AroMini is where there is a lot of airflow.
- If you are not sure of the direction of the airflow, simply turn on the AroMini and using a flashlight point it at the scent output and watch where the scent will travel. Alternatively, light up a match and blow it out immediately. The direction of the scent or smoke will tell you which way the fragrance will travel.
- The AroMini is a luxury and aesthetically beautiful device. Keep it always in the open area and do not hide it behind or under pieces of furniture.
- Try a variety of locations and settings until you are happy with scent coverage. Give the AroMini a little time to adjust to the new location and setting before changing it again.

CAUTION

Always be cautious of where you are placing the AroMini. Make sure it cannot be tipped over as that may cause some aroma oil to leak out. Keep out of reach of children. Avoid getting aroma oil liquid in contact with wood or other delicate surfaces.

NOTE

Do not place the AroMini near an HVAC return grill, exhaust fan or vent, open door or a window as that will cause the scent to escape the space. Remember you want to work with the natural airflow not against it.

SETTING SCENT INTENSITY

You are now ready to start scenting. Remember, the AroMini is a high performance adjustable device capable of scenting spaces from 10 to 1,000 sq.ft. Once the fragrance is in the device, basic operation is simply adjusting the scent level to match the room size, conditions, and your taste. Simply turn the device ON by rotating the volume knob from Off to Min. Start at minimum and watch the scent spread throughout your space. If your need to increase scent intensity, simply rotate the dial from Minimum to Maximum level. Remember, less is more. Always start at the lowest setting and increase as needed. This is a unique and powerful performance feature of AroMini. Once you have chosen the right setting, you should only have to adjust slightly with the different fragrances.

IMPORTANT

Keep nose clear from fragrance output when the device is operating. Instead, wave air towards nose to experience fragrance.

TIP

As a rough estimate, start with a setting level at Min. When you change a scent level give the AroMini some time to equalize the scent level throughout the space before you decide if you need to adjust.

Installing the Fragrance Bottle

1. Screw the bottle into the diffuser.
2. Insert the bottle and diffuser into the base part.
3. Lock it firmly by rotating clockwise.

Cleaning the Diffuser

- To ensure your diffuser runs seamlessly, make sure to clean it every time you refill the bottle or use a new essential oil.

IF YOU CAN NO LONGER SMELL THE SCENT:

- Check to make sure bottle is not empty.
- If the bottle is full but still not diffusing the fragrance, then the diffuser may be clogged and needs to be cleaned out with rubbing alcohol.

How to Clean your Diffuser

1. Turn the device off.
2. Unscrew the bottle and replace the essential oil with rubbing alcohol.
3. Screw the bottle into the AroMini and let it run for 10-15 minutes.
4. When 10-15 min is up replace rubbing alcohol with your essential oil.

CAUTIONS

- Only use the power adapter supplied with the device.
- Never operate the diffuser if the power adapter is damaged.
- Do not use the diffuser if any part of the device is broken.
- To reduce the risk of electric shock, do not attempt to service the device in any way other than as described in the "Care & Maintenance" section of this manual.
- Do not disassemble or attempt to repair the diffuser; in the event of a problem, please contact us at 1.888.276.6245 or email help@aromatechscent.com
- When moving the device, always keep it upright and secure with both hands.
- Always place the unit on a stable, level surface, i.e. shelf or a table.
- Do not plug the unit into the wall socket with wet hands.
- Do not pour water or other liquids into the bottle with aroma oil.
- Do not tilt, move or attempt to empty or refill unit while in operation.

- To prevent clogging of the diffuser, run rubbing alcohol once a month for 15 min.
- Always turn off and unplug the device during maintenance or when not in use.
- Ensure that the power adapter is not covered or blocked when plugged in; it must be able to dissipate the heat properly.
- Do not cover the diffuser with objects or material while in use.
- Keep the device at least 24" from the ceiling.
- Use only AromaTech diffuser blends; other oils may contain fragrances, base oils or synthetics that could result in malfunction. Some single note essential oils are also too thick or heavy for use in the ultrasonic diffuser. See FAQs for more information.
- In case of smoke, unusual scent, loud noise, or other malfunction, unplug the unit immediately and discontinue use. Further use may result in fire or electrical shock.
- Do not immerse the unit in water.
- Always keep unit out of reach of small children and pets.

FAQ

WHAT SIZE ROOM WILL THE AROMINI HANDLE?

AroMini is fully adjustable for different size rooms. It is most effective in spaces from 10 to 1,000 sq.ft. (10 to 92 sq.m.).

WHERE CAN I PLACE THE AROMINI?

You must place the AroMini on a flat surface where it can take full advantage of the natural airflow in the space. See the User Guide for details.

DO I NEED TO ADJUST THE AROMINI?

Yes! AroMini is a very powerful device that can handle small and large spaces. If the diffuser is set too high for the room size, it may cause discomfort. Adjusting the scent intensity is easy. Simply use the dial on the power adaptor to adjust from Min to Max level. Start at Min settings and work your way up if needed.

HOW STRONG SHOULD I MAKE THE SCENT?

Remember, less is more. AroMini allows you to get rid of bad odors and create a unique ambiance with small amounts of scent. Unlike other air fresheners, AroMini can be adjusted. Do it right!

WHAT IF MY UNIT DOES NOT TURN ON?

Power adapter may not be properly plugged in; ensure that the power adapter is properly plugged into the DC power jack and the electrical source.

WHAT IF MY UNIT DOES NOT SCENT OR THERE IS ALMOST NO SCENT COMING OUT?

Check first there is aroma oil in the bottle and the bottle is screwed in straight and snug. The diffuser core may be clogged and need cleaning. Please see "Care & Maintenance" instructions.

WHAT TYPE OF OILS CAN I PUT IN MY NEBULIZING DIFFUSER?

Use only AromaTech diffuser blends; other blends and oils may contain base oils that could result in malfunction. Many single note essential oils should not be used in the diffuser. Single note essential oils may have a thick or heavy consistency that can clog the diffuser and cause it to stop diffusing scent. AromaTech diffuser blends have been carefully blended to be effective.

IS THE AROMINI SAFE TO USE WITH CHILDREN AND PETS?

Yes. When used as directed and only with AromaTech essential and aroma oil blends, AroMini is the safest cold-air diffuser available. Make sure to request SDS if you require more info about the oil being diffused.

HOW DOES THE AROMINI DIFFER FROM AEROSOL AND ULTRASONIC DIFFUSER?

Aerosol sprays diffuses very large particles that drop to the ground the moment they are sprayed providing very high concentrations just in the area they were sprayed. The scent effect is very short and can't be controlled. Ultrasonic diffusers use water and vibration to diffuse very tiny amounts of essential and aroma oils. With AroMini, there is no diluting

in water or other carrier oils are required. The scent particles diffused suspend for several hours providing the most subtle and comfortable scented environment. AroMini creates, maintains and evenly delivers a perfectly balanced scented environment continuously and in low dosage without alcohol, water, propellants or other harmful VOCs.

IS THE AROMINI ECO FRIENDLY?

AromaTech diffusers are the most eco friendly products on the market. Unlike aerosols, AroMini uses no propellants, phthalates and produces no harmful volatile organic compounds, VOCs. Unlike many air fresheners, AroMini uses no ethanol or similar solvent to enhance the evaporation of fragrance chemicals.

WARRANTY AND SUPPORT?

All products designed by AromaTech come with a 1-year limited warranty. Failure to use AromaTech branded oils may cause your diffuser to malfunction or not diffuse properly in which case warranty will be void. If you have any questions or issues simply call 1.888.276.6245 or email us at help@aromatechscents.com and we will take care of you.

Troubleshooting

IMPORTANT TIP

To avoid diffuser clogging and ensure optimal scenting experience, only use AromaTech essential and aroma oil blends. AromaTech oils have been formulated specifically for our diffusers. Failure to use AromaTech branded oils may cause malfunction or clogging of your diffuser. If that happens reach out to us and we will assist you with a replacement diffuser core (part with the PU tube).
