WARRANTY

Two Year Limited Warranty

Warrants against defects in materials and workmanship under normal use for a period of 2 years from the date of retail purchase by the original end-user.

Limitations

The limited warranty does not apply to normal performance degradation of batteries or neglecting to adhere to cleaning instructions.

THE KIT INCLUDES

User manual

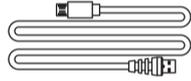

Packing Tool

ONIX

Cleaning brush

USB Charging Cable

HOW TO USE

- 1: The heating chamber is located on the bottom of the device, use the tab to rotate the cap anti-clockwise and remove.
2: Load your dried herbs into the ceramic chamber but DO NOT OVERPACK as air still needs to pass through the chamber.
3: Click the power button 5 times rapidly to turn on the device.
4: Set your desired temperature using the +/- buttons.
5: While heating the OLED display shows 'heat' and will flash blue which indicates it is heating.
6: Once the set temperature is reached, the OLED display shows 'warm' and the flashing blue light turns to a solid blue light, indicating it is ready to use.
7: The device is equipped with a 5min auto-shut off safety feature.
8: To turn off the device, click the power button 5 times rapidly.

TEMPERATURE SETTINGS

- Temperature ranges from 300F to 435F
- Increase or decrease the temp by using the +/- buttons.
- Hold the power button and (+) for 3 seconds to change from Celsius to Fahrenheit
- Hold the power button and (-) for 3 seconds to change from Fahrenheit to Celsius
- The device will remember your last stored temperature setting.

CLEANING AND MAINTENANCE

Ensure that the device is completely cooled before cleaning, remove the oven lid and empty the chamber completely. Use the cleaning brush provided to gently remove any remaining particles inside and around the chamber.

Remove the lid and take out the cooling tube and cap. These are ceramic and can be washed with water or soaked in iso-alcohol.

You may use a cotton bud soaked with ISO-Alcohol to gently remove any remaining residue and leave to dry before use.

Caution: Do not immerse the device in liquid of any kind, it will damage the heating component.

CHARGING INSTRUCTIONS

- Charge your device for at least 4hrs on the first charge, this will ensure the device has consistent battery levels.
- Use the USB cable provides to charge the device, use a wall adaptor to charge the device not a laptop or computer.
- While charging the device will flash blue to indicate 'charging'. The device will show solid blue light when the battery is fully charged.
- A full charge from 0% will take approximately 3hrs.

Caution: Do not leave the device connected to the charger for extended periods of time. This will cause damage to the battery and reduce the overall life of your battery in the long term.

WARNINGS

- Do not use if damaged.
- Do not touch the heating chamber for at least 10mins after use as chamber will be very hot.
- Do not allow device to come in contact with moisture.
- Keep out of reach with Children.
- Do not puncture, or incinerate.
- Do not dismantle the device beyond the cleaning and maintenance instructions.
