Introducing

# ClotIt VET

Stops Bleeding Fast

Now available in sterile, single-dose applications for use in the OR.

**ClotIt® VET** is a sterile, single-dose application of **ClotIt** blood clotting powder – the latest addition to the **ClotIt** family of products for use at home, in the office and now in the OR.

Recommended and tested by veterinarians for use with hematomas, bleeding tumors, dental procedures, and soft palate surgery.

- All-natural white powder
- Non-staining
- Works quickly on minor-to-severe wounds
- Triple-action process results in complete clotting in seconds

When a pet is hurt, or needing surgery, respond quickly with ClotIt.®
