

Animal Welfare Statement

Sustainable sourcing policy

Nubyén is committed to managing its suppliers in accordance with its sustainability objectives. This policy statement briefly summarises our commitment with regards to our social responsibility, sustainable development and environmental compliance. Traceability of Raw materials Lowering the environmental impact of raw materials Where possible we try to use sustainable fabrics in the production of our clothing, where possible recycled fibres. (Eco print- S3 technology active wear collection).

Our ethical trade programme and corporate responsibility, aims to ensure that our workers are protected in our supply chain. We use recycled fibre in our range in order to help protect our environment. We currently do not use denim, sound blasting or leather in our ranges. We also try not to use high-risk materials such as PU or PVC.. Ultimately through our brand we hope to inspire women, by helping them to look and feel their best.

We aim to enhance the lives and support the local community of the people who work for us. We find this so valuable. We are committed to sourcing responsibly and work very closely with our supplier to ensure this.
