

Kontrol Kube TopSider Mobile Dust Containment System

Description:

The Kontrol Kube TopSider Mobile Dust Containment System

Includes:

- Aluminum Frame Assembly (#6540)
- Solid Locking Universal Wheel Base (#6543)
- 10 Foot Heavy Duty Enclosure (#6544)

Extended Information:

The Kontrol Kube TopSider eliminates the need for most disposable barrier materials and dramatically reduces labor cost for building containment. The TopSider can be set up in just minutes and then moved quickly and easily from site to site without removing tools, ladder and equipment.

- Increase Worker productivity
- Reduce Labor Costs
- Eliminate Expensive Barrier Materials
- Improve Patient Outcomes
- Simplify ICRA process

The Fire rated nylon reinforced vinyl enclosure is highly tear resistant and offers great cleanability with a simple design that addresses the core requirements of portable containment.

The Topsider comes with a solid aluminum frame and wheelbase with locking casters making it the perfect tool for light fixture repair, ceiling tile access, cabling and inspections throughout the facility.
