

## **Kontrol Kube Advanced Mobile Dust Containment System (#N1002)**

### **Description:**

The Kontrol Kube Advanced Mobile Dust Containment System

Includes:

- Aluminum Frame Assembly (#6540)
- Solid Locking Universal Wheel Base (#6543)
- 10 Foot Advanced Heavy Duty Enclosure (#6547)

### **Extended Information:**

The Kontrol Kube Advanced eliminates the need for most disposable barrier materials and dramatically reduces labor cost for building containment. The Kontrol Kube Advanced can be set up in just minutes and then moved quickly and easily from site to site without removing tools, ladder and equipment.

- Increase Worker productivity
  - Reduce Labor Costs
  - Eliminate Expensive Barrier Materials
  - Improve Patient Outcomes
  - Simplify ICRA process
1. Synthetic Fabric Enclosure is over three times stronger than traditional vinyl enclosures. This advanced fabric meets NFPA 701, California Fire Marshal, CPAI 84 and FMVSS 302 fire retardant specifications.
  2. Detachable Flanges (Anteroom and Multi-Unit) for larger containment. Anteroom flanges connect the unit to a door way allowing for room containment. Connector flanges allow multiple units to be connected together.
  3. 12" Negative Air Port ensures compatibility with all popular negative air machines, including the Kontrol Kube Negative Air Machine.
  4. 8' and 10' Enclosures to meet your facilities specific needs. Both units are adjustable down to a working height of 7'.
  5. Webbing Reinforcements in high stress and wear areas ensure long life.
  6. Enclosure "Sag" Restraints prevent the enclosure from sagging when lowered. The enclosure folds on itself easing use at all heights.
  7. Bolt Action Poles make it easier to adjust the height and increase the strength and rigidity of the poles.
  8. Collapsible Design allow the unit to be stored easily taking up less space. New features allow a unit that is collapsed to be set up in less than 2 minutes.

Specs:

Height: 10 Foot on Wheel Base

Width x Length: 30" x 60"

Frame Assembly: Solid Aluminum

Multi-Unit Connections: Yes

Detachable Flanges: Yes

Fire Rated: Yes

Enclosure Material: Synthetic Woven Fiber

12" Diameter Portal: Yes

3" Diameter Portal: Yes
