#### Why are we Offering Fast Start Campaigns?

What Solutions do They Cover?

SAP has made a big strategic investment in the General Business (GB) market. To strengthen SAP's visibility in the GB space, multiple GTM, Social, Digital, and Demand Generation programs have been rolled out to drive and increase business reach in these market segments. Multiple teams will be rolling out these programs in the GB space, and significant efforts will be made to increase SAP presence and role in the General Business market promoting on-premise and Cloud solutions.

The GB growth plan is also dedicated to partners and will encourage partners to step into joint programs. SAP brings a highly professional Demand Generation program to the table and with this program is offering a 100% MDF refund possibility, consolidated execution, fast track lead funnel, and a range of highly innovative lead generating marketing tactics, such as digital and social campaigns, virtual reality demos, video stories and precise market data modeling.

Below is a paid traffic example to SME SAP SuccessFactors campaign landing pages in MENA only (reporting date 21/11/2016–31/12/2016):

- Around 4,9 Mio impressions
- 64,681 clicks from Paid (Google, eMedia, GDN)
- 36,602 Page visits
- 60 Forms

We expect a huge increase in search engine optimization (SEO), Social and Paid in the next few years – so a large increase of digital leads (and investment).
