

# AeroChamber<sup>®</sup> Plus<sup>\*</sup>

Valved Holding Chamber

EZ Flow<sup>\*</sup> Exhalation Valve

ComfortSeal<sup>\*</sup> Mask provides a comfortable, secure fit

## Proven Performance

Getting the medication to your patients' lungs is priority one - the **AeroChamber Plus<sup>\*</sup>** Valved Holding Chamber (VHC) is designed to do just that.

- Proven dosing performance across a wide range of formulations
- The only full line of aerosol delivery devices designed specifically for each patient
- **EZ-Flow<sup>\*</sup>** Exhalation Valve offers lower resistance to exhaled flow and directs the flow away from the patient to prevent irritation

# AeroChamber<sup>®</sup> Plus<sup>\*</sup>

Valved Holding Chamber

### EZ Flow<sup>\*</sup> Exhalation Valve

Robust design allowing a low resistance to exhaled flow

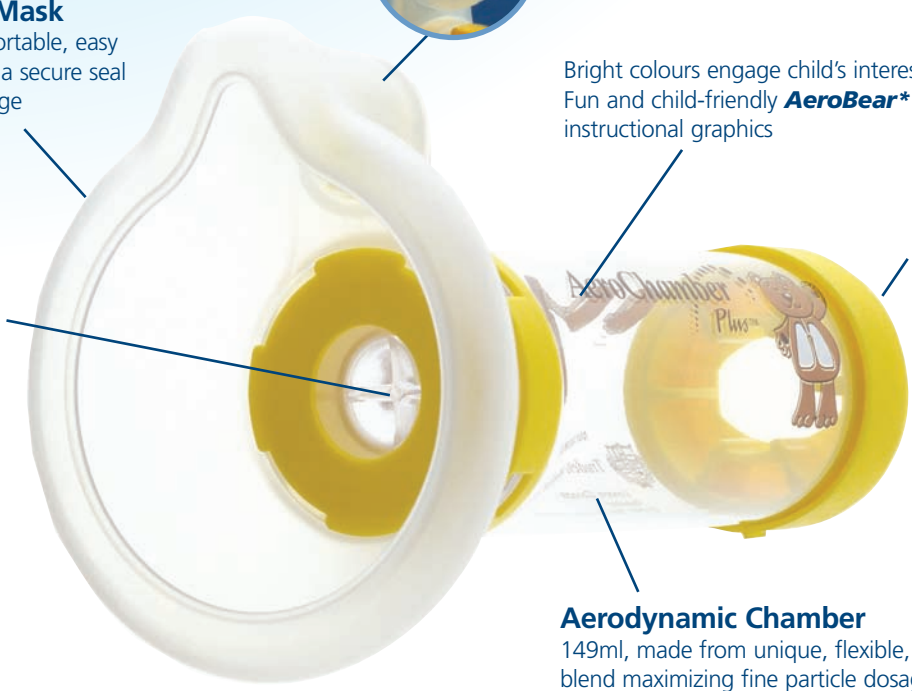

### ComfortSeal<sup>\*</sup> Mask

Latex-free, soft, comfortable, easy to clean and provides a secure seal across a wide age range

Bright colours engage child's interest. Fun and child-friendly **AeroBear<sup>®</sup>** instructional graphics

### Inhalation Valve

Protective design, low inhalation resistance

Universal metered dose inhaler adapter

### Aerodynamic Chamber

149ml, made from unique, flexible, shatter resistant polymer blend maximizing fine particle dosage and allowing aerosolized medication to be suspended in the chamber

### Flow Dynamic Design

Increases suspension time for particles, improves respirable dose of medication
