

## 13" Automatic Slicer with Variable Speed AX-S13GAiX

Improved blade guard removal system

Completely sealed stainless steel shaft

Large receiving tray

Increased gap between blade  
and machine body

13" Automatic Slicer with Variable

## Standard Features

- Sharpener assembly made entirely from aluminum, no plastic presence that may break with heavy use.
- Tie rod assembly and all external screws are made of stainless steel for longer life.
- One piece, chromium plated 100Cr6 forged carbon steel blade.
- Slide shaft made of ground, chromed steel for a smoother operation.
- High-quality bushings and ball bearings are self-lubricating.
- Dial thickness control cam system allows for an always precise cut.
- A safety cover is placed under the motor and the electrical components.
- The carriage features an exclusive heavy duty plastic protection to keep operator's hand at a safe distance from the blade while operating the slicer.
- Permanently-mounted knife ring guard covers the non-cutting side of the blade.
- Overload and no volt release protection
- Easy to clean aluminum alloy construction does not crack or stain.
- Screws are stainless steel and resist wear and oxidation.
- Carriage and the center plate are quickly removable without tools.
- Built-in, removable, two stone dual action blade sharpener.
