

Keeping America Cool Since 1952

Model 155

Classic Outdoor Ice Merchandisers

Capacity

- 155 Cubic Feet (*approx.*)

Outside Dimensions

- Width 96"
- Depth 54"
- Height 90-1/2"

Attributes

- 27" x 46" Durapon Coated Steel Doors
- White Interior for Solid Doors
- 3/4 Horsepower Compressor
- 15 Amps
- R404A Refrigeration

Standard features:

- Water-tight lock-form seam construction for a stronger and more durable cabinet with all steel construction.
 - Premier quality construction with the straightest edges and minimal foam bleed.
 - 'Box Frame' constructed for optimal strength and increased resistance to freight damage.
- Hot-dipped galvanized top-coated steel door with premium fluorocarbon paint system.
- 70% more open air channels than other brands to provide air flow.
- Low temperature sealed condensing units.
- Two-part acrylic polyurethane coating offers mid-range gloss and excellent weather ability. Epoxy primer formulated to have excellent adhesion and corrosion and humidity resistance.
- PVC bottom skid plates for non-marking of floor surfaces.
- Door openings feature high impact vinyl breaker strips to provide better impact resistance and greater durability to handle harsh conditions.
- Drain plug - recessed drain for easier and complete water draining.
- Easily accessible refrigeration service valves.
- Drop-down unit cooler allows ease of service.
- Now featuring electronic controls.
- Packaged with non-marking corner protective V-boards and dust cover for dirt/debris protection.

Options

- Reverse fan self-cleaning condensing unit
- Heavy-duty refrigeration available for automatic defrost models
- Call for additional options! (800)-766-5337

Model 155

Classic Outdoor Ice Merchandisers

Auto Defrost Shipping Weight 750 lbs. (approx.)

We maximize efficiency in our efforts to be Green

- 3" floor insulation and 2.5" ceiling and wall insulation for increased R value over other brands
- Inset 2" solid (one-piece PVC) welded reinforced door gives a 1/2" more thickness than other brands to improve efficiency.
- Leer merchandisers meet Department of Energy (DOE) energy conservation standards
- Recyclable shipping materials
- Reduced operating costs - up to a 30% energy savings over other brands
- NSF Approved indoor and outdoor units now available

Leer has been designing, building and improving ice merchandisers since 1952. We keep a large inventory of finished goods and replacement parts on hand at all times. Over 50 models of merchandisers, including cash-less self-vending machines are available from stock and through our distribution partners.
