

# Combi oven

# Project \_\_\_\_\_\_ Item \_\_\_\_\_ Quantity \_\_\_\_\_ FCSI section \_\_\_\_\_ Approval \_\_\_\_\_\_ Date \_\_\_\_\_

## Model

# Convotherm mini easyTouch

- easyTouch
- 10 Shelves GN 1/1
- Electric
- Injection/Spritzer
- Right-hinged door

# Key features

- Operating modes: Steam, Combi-steam, Convection
- Extra functions:
  - Crisp&Tasty 3 moisture-removal settings
  - BakePro 3 levels of traditional baking
  - o Reduced fan speed and auto-reverse mode
- easyTouch 7" full touchscreen
- ConvoClean fully automatic cleaning system with express mode and Safe Cool Down function before cleaning
- Ethernet interface (LAN)
- USB port built into the control panel
- Steam generated by injecting water into the cooking chamber
- Right-hinged appliance door

# Standard features

- Operating modes:
  - $\circ\quad$  Steam (30-120°C) with guaranteed steam saturation
  - o Combi-steam (100-250°C) with automatic humidity adjustment
  - O Convection (30-250°C) with optimized heat transfer
- easyTouch user interface:
  - o 7" full touchscreen
  - Press&Go Automatic cooking and baking using quick-select buttons
  - easyStart Automatic cooking and baking using product suggestions
  - TrayTimer oven-load management for different products at the same time
  - Regenerate flexible multi-mode retherm function
  - ecoCooking energy-save function
  - O Low-temperature cooking / Delta-T cooking
  - Cook&Hold cook and hold in one process
  - Programmable with an unlimited number of cooking profiles, each with up to 99 steps and one picture
  - On-screen Help
  - Start-time preset
- Multi-point core temperature probe
- Data storage for HACCP and pasteurization figures
- Preheat and cool down function
- Flexible shelf spacing
- Vapour reduction

# **Options**

- Exterior design in black on stainless steel
- Left-hinged appliance door
- Steam Protect (automatic moisture removal (can be permanently enabled if required))
- Safe Cool Down (automatic cooling during cooking and baking (can be permanently enabled if required))
- Available in various voltages

#### Accessories

- Hand shower with smooth flow control
- ConvoLink HACCP and cooking profile management PC software
- ConvoVent mini condensation hood
- Stands in various sizes and designs
- Stacking kits
- Care products for the ConvoClean system fully automatic cleaning system

# Connection points

| Dimensions including packaging<br>Width x Height x Depth | 580 x 1065 x 910 mm |
|----------------------------------------------------------|---------------------|
| Weight                                                   |                     |
| Empty weight without packaging                           | 70 kg               |
| Weight of packaging                                      | 13 kg               |
| Safety clearances*                                       |                     |
| Rear                                                     | 50 mm               |
| Right                                                    | 50 mm               |
| Left (larger gap recommended for serv                    | vicing) 50 mm       |
| Top**                                                    | 500 mm              |

- \* Minimum distance from heat sources: 500 mm.
- \*\* Depends on type of air ventilation system and nature of ceiling.

- Water-supply connection (for water injection)
- B Water-supply connection (for cleaning)
- C Drain connection DN 40
- D Electrical connection
- E Equipotential bonding
- F Rinse-aid connection
- G Cleaning-agent connection
- H Air vent Ø 30 mm
- l Ventilation port Ø 43 mm
- M Safety overflow 60 mm x 20 mm

## Installation instructions

| Absolute tilt of unit in operation | max. 2° (3.5%) |
|------------------------------------|----------------|

# Loading

# **Electrical supply**

# Water

# Loading capacity

| Max. number of food containers |       |
|--------------------------------|-------|
| GN 1/1 depth 40 mm             | 10    |
| GN 1/1 depth 65 mm             | 6     |
| Plates max. Ø 26 cm,           | 12    |
| Maximum loading weight         |       |
| GN 1/1, per combi oven         | 30 kg |
| GN 1/1, per shelf level        | 5 kg  |

| Electrical conductivity                  | min. 20 μS/cm                                                                      |

<sup>\*</sup> See diagram of connection points, page 2.

#### Water

## **Emissions**

# **Accessories**

# Water consumption

| Water-supply connection A*           |                   |
|--------------------------------------|-------------------|
| Ø Consumption for cooking            | 0 - 15 l/h        |
| Max. water flow rate                 | 0.5 l/min         |
| Water-supply connections A, B with 0 | ConvoClean system |
| Ø Consumption for cooking**          | 0 - 20 l/h        |
| Max. water flow rate                 | 10 l/min          |
|                                      |                   |

<sup>\*</sup> Values for selecting the capacity of the water treatment system.

PLEASE NOTE: See diagram of connection points, page 2.

#### **Emissions**

| Dissipated heat*        |                     |
|-------------------------|---------------------|
| Latent heat             | 1850 kJ/h / 0.51 kW |
| Sensible heat           | 2030 kJ/h / 0.56 kW |
| Waste water temperature | max. 80 °C          |
| Noise during operation  | max. 60 dBA         |

<sup>\*</sup> The dissipated heat values were measured as per DIN 18873-1 "Methods for measuring the energy use of equipment for commercial kitchens — Part 1". The type and frequency of appliance usage are decisive for the specification of an air conditioning and ventilation system. These values can be higher than the values indicated for dissipated heat. Guide values can be found in the technical

literature, e.g. in VDI 2052.
Please consult your specialized design engineer for planning an air conditioning and ventilation system.
