VERSA-CHILL WORKTOP COOLERS WITH DRAWERS

GENERAL

Using steel construction these worktop coolers are available in 3 sizes to meet your needs.

Cabinet Construction

The exterior sides and front are covered in 24 Gauge, type 430 Stainless Steel.

The interior walls and doors are covered in 22 Gauge, type 430 Stainless Steel and the floors are covered in 24 Gauge, type 304 Stainless Steel.

The inside corners are rounded for easy cleaning. The units come equipped with adjustable PVC coated shelves.

These units have a backsplash to prevent items falling behind.

The entire unit is built using a high density Polyurethane insulation that is applied in place.

Doors / Drawers

Recessed handles for smoother front and reduced space requirements.

The gasket is magnetized to provide easy removal for cleaning.

Self-closing doors equipped with "stay open" feature when opened past 90 degrees.

Drawers provide quick and efficient access to items.

Refrigeration

Oversized factory balanced system designed to hold 33 - 45 degrees Fahrenheit.

The refrigeration system uses R134A that is CFC and HCFC free.

Condensor unit is easily accessible for routine cleaning and maintenance.

Electrical

Units come factory wired and ready to connect with 115/60/1 phase, 15 amp dedicated plug and cord.
