

BREMA[®] Ice Makers

Made in Italy

Features and Benefits

- **Stainless steel 304 interior and exterior** Never rusts or corrodes.
- **Stainless steel evaporator** Greatly reduces mineral build-up for increased pump and compressor operation. Produces pure quality clear compact crystalline hard ice cubes.
- **Fixed and non-rotating evaporators** Ensures longevity.
- **Individual ice cubes** Longer lasting, better displacement, maximizes production and reduces service costs.
- **Thermostat bin** Ice production cycle can be increased or decreased.
- **Space saving units** Fits and operates in limited spaces. Bin doors slide up and tuck under ice machine top cover. All units are front breathing, no need for side and back clearance.
- **Water pump not immersed in water** Less complications with longer lasting results.
- **Fire sensor** Detects intense heat and shuts down machine's electrical components.
- **Easy accessibility** Electro-mechanical units: (2) thermostats (bin & evaporator), and timer. Replacing parts; easy, quick and affordable. No circuit boards/electronics.
- **Removable cleanable air filters** Reducing maintenance costs and ensuring a longer lasting machine.
- **Large diameter metal sprayers** Free water flow, reduces the effect of hard waters.
- **All Models** Refrigerant: R404A, Cooling System: Air.
- **Competitively priced** Energy efficient, certification: ETL VERIFIED, NSF

13 g
Size (H x W x D):
1.2" x 1" x 1.2"
Weight: 0.45 oz

18 g
Size (H x W x D):
1.3" x 1.4" x 1.3"
Weight: 0.64 oz

PRODUCTION:
62 lbs / 24 hr
