Compatible Accessory.

Thermo XPress Whip.

The independent whipper for catering and coffee houses.

For the preparation of fresh whipped cream. Also suitable for warm and cold applications such as espumas, finger food, sauces and desserts.

Non-slip silicone drip tray with stainless steel plate – for clean workstations.

Standing cream whipper with riser tube system and lever operated dispensing for ease of use and consistent, smooth operation – new lever is made to fit with your existing Thermo Xpress Whip.

Double-walled, stainless steel vacuum-insulated bottle with maximum thermal performance: keeps creations cold or hot for hours.

Decorator tip and adapter can easily be removed for periodic cleaning.
