

LILYANNA

Oriental Herbal Skincare

// Achieving a flawless natural skin complexion should not be difficult and there **MUST** be a remedy for everything...

With this in mind, I went through numerous ancient Chinese Medical classics to search and experiment on how the Imperial royalties maintained and preserved their beauty. My research led to the story of Imperial Consort Yang Guifei who is also known as one of the four beauties in Chinese history.

My research was on her encounter with problematic skin conditions due to using heavy makeup containing large amounts of lead and mercury and how the Imperial physicians treated her of her skin conditions with various herbal formulas. I have now improvised upon those formulas and concocted them into the present LILYANNA products.

I hope to share these wonderful findings with all who are interested in restoring their **natural beauty.**"

Founder, LILYANNA Herbal Skincare Aesthetics

Herbal Philosophy

36 HERBAL INGREDIENTS . 100% NATURAL .
NO HARMFUL CHEMICAL PRESERVATIVES

Embrace

the wisdom of nature

The Lilyanna skincare approach inherits a fundamental concept passed on by the ancients. To seek the source and eradicate the root of the problem rather than to cover up.

Based on the oriental philosophy of balance and harmony, Lilyanna seeks to restore the natural state of your facial skin by removing displaced energies caused by toxins, pollutants and impurities accumulated beneath the skin layers over long periods of time. Symptoms of such imbalances are often expressed through dermatological means such as acnes, pimples, blackheads, pigmentation, eczema and many other forms of facial skin problems.

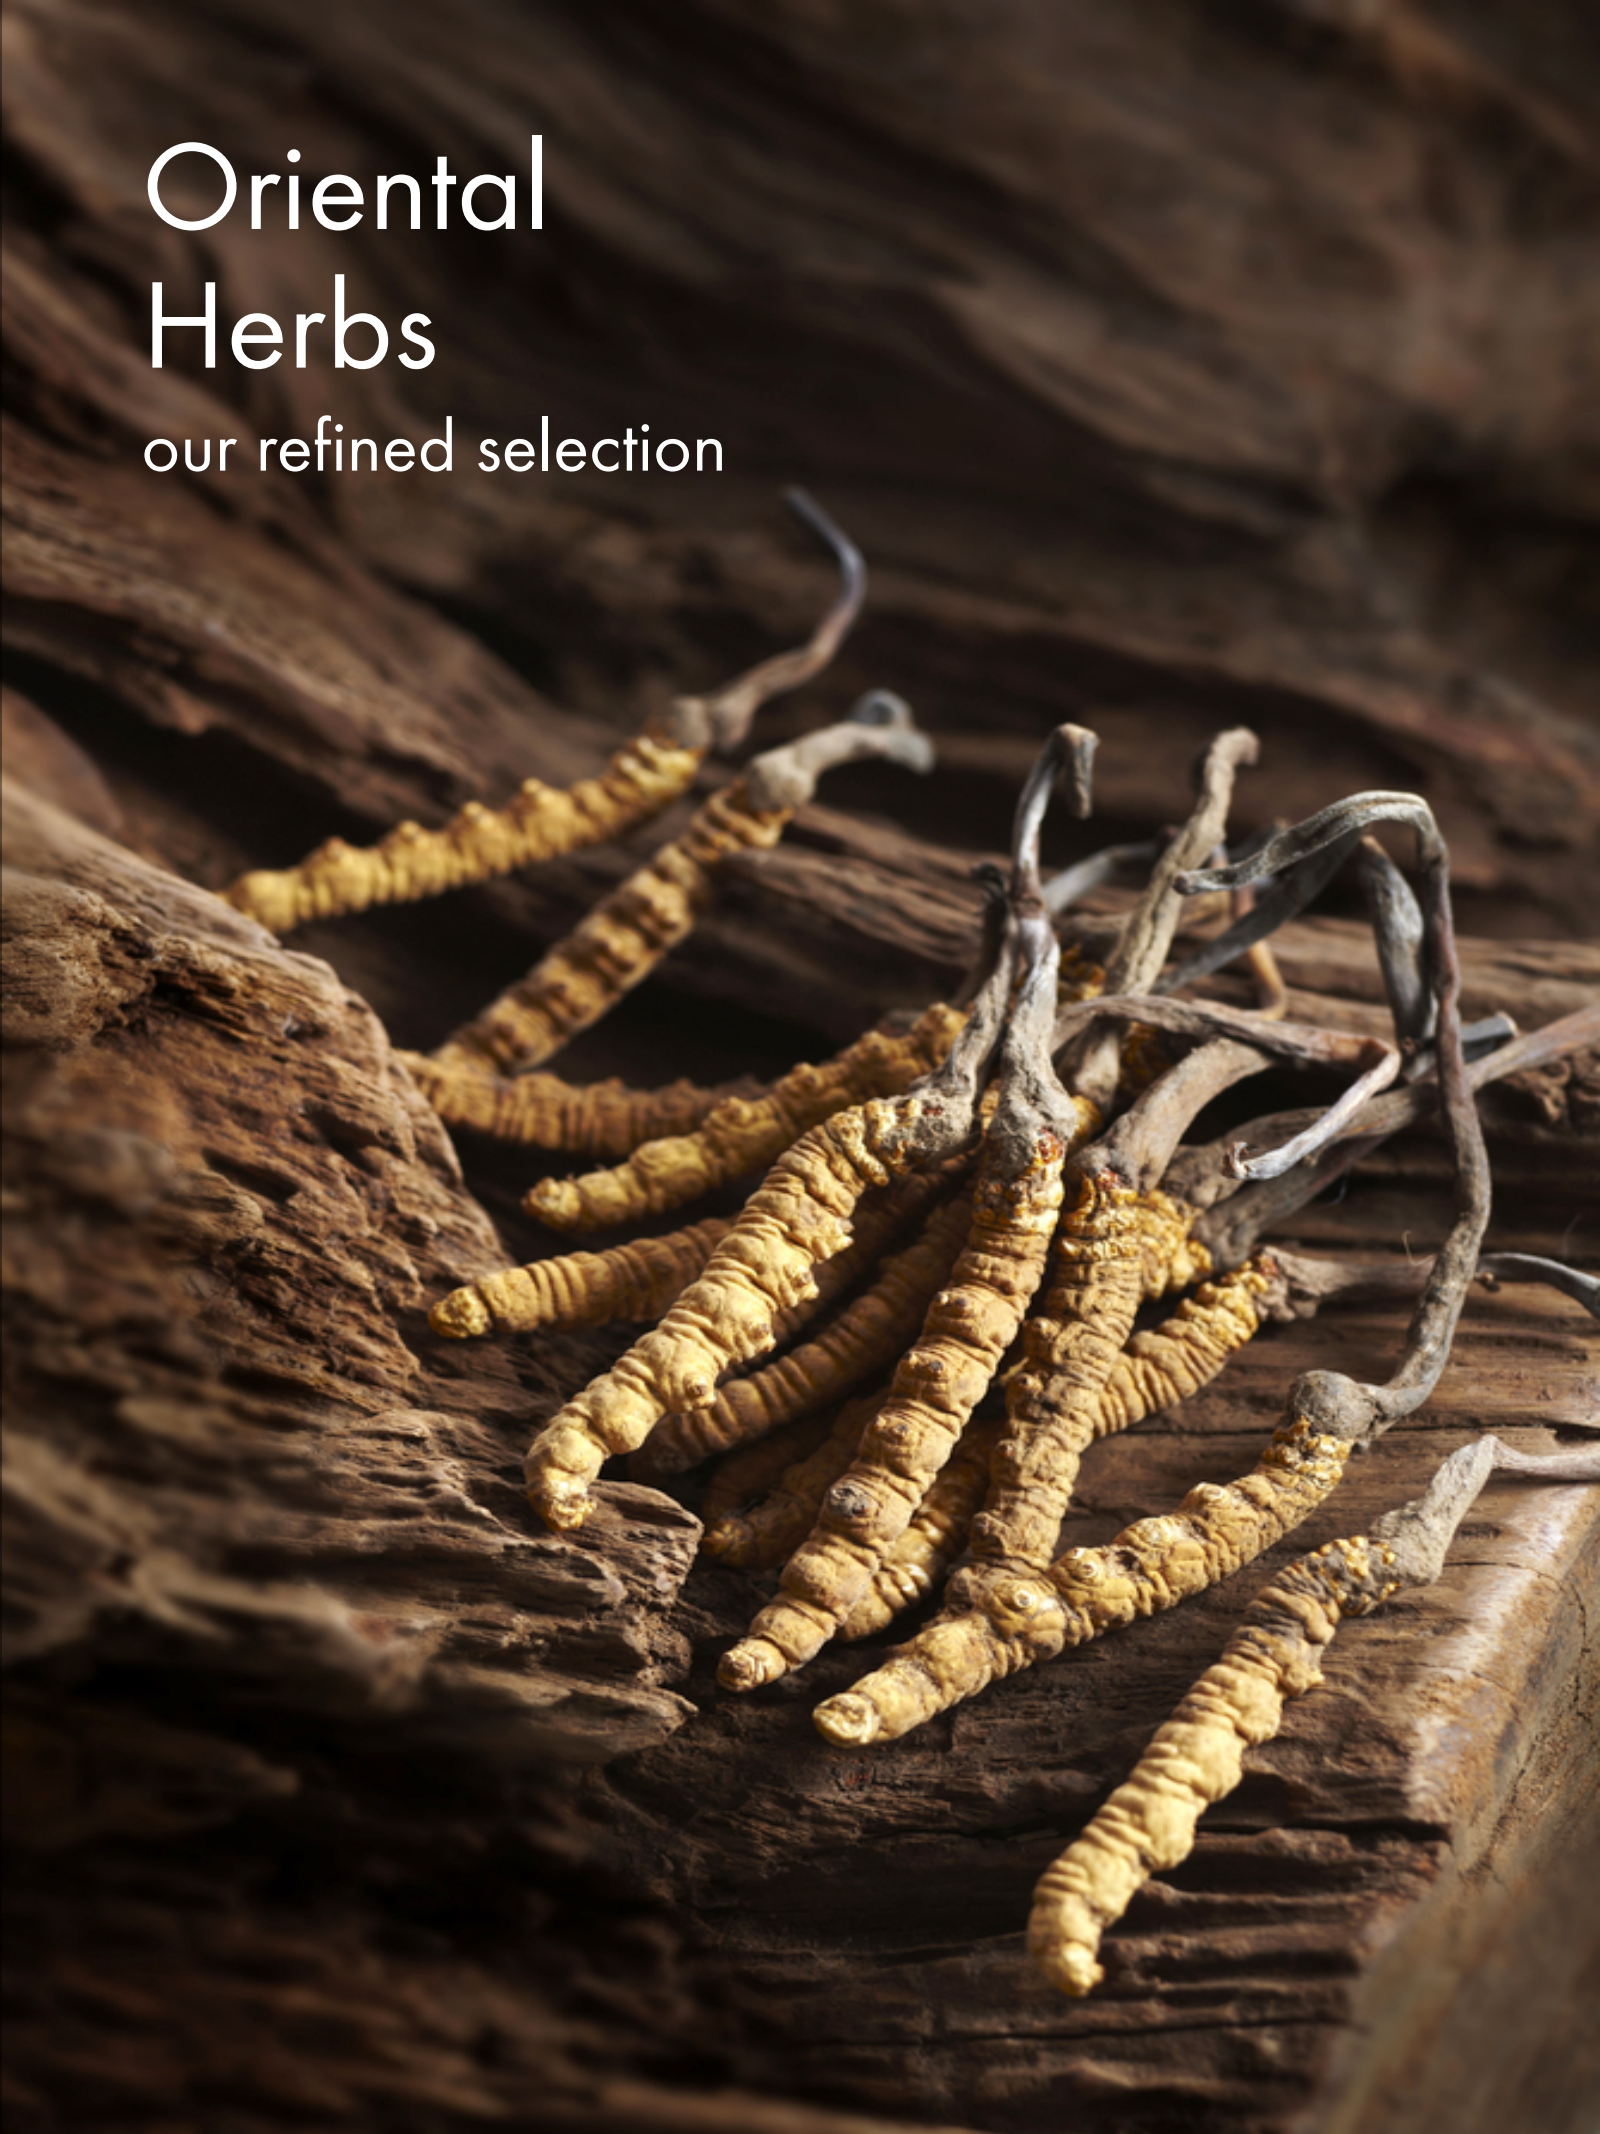

Long term usage will enhance facial skin immunity, eradicate free radicals, improve microcirculation, remove/cure/prevent acnes, blackheads, pimples, dull skin, dark eye circles, melanin deposits, whiteheads, oil spots, milia, eczema, red blood silk, sensitive skin, hay fever, aging skin and various forms of skin problems.

Through a delicate and powerful 4 steps process of natural cleansing, detoxification, balancing and rejuvenation, Lilyanna aims to purge impurities from beneath the skin layers and strengthen them by increasing its immunity while encouraging the regeneration of skin cells activities. Effectively resulting in the recovery towards a beautiful, supple and natural healthy skin.

The overall effect is a revival of the originally natural and pure state of your facial skin. To reveal what it was always meant to be...We hold the belief that a silky, supple, and healthy complexion without the artificial enhancement of chemically produced products, is undoubtedly the most natural yet unique form of beauty.

Oriental Herbs

our refined selection

Main Ingredients

Cordyceps Extract

Known for anti-aging properties with the natural ability to fight free radicals, infections and inflammations.

Ganoderma Lucidum

(Cracked Spores)

Effectively functions to suppress formation of melanin, reduce free radicals and speed up cell regeneration.

Atractylodes Macrocephala

Commonly used in Chinese herbal medicine, helps to soothe the skin and contains strong antioxidant properties.

White Jade Powder

Powerful herbal ingredient enhances skin immunity, boost microcirculation and stimulate skin's self healing mechanism

Paeonia Lactiflora

Commonly used to activate skin's natural healing mechanisms, helps to tone and firm the epidermis. Contains regenerative properties.

Radix Trichosanthis

Good for reducing swelling, alleviating eczema problems, removing sweat spots, abrasions and scars.

Main Ingredients

Ginseng Extract

Prized for rejuvenating the skin to reduce wrinkle formation, firm and tighten skin appearance, brightening and lightening skin complexion.

Leonurus Artemisia
(Motherwort)

An amazing plant that can effectively ease itchiness and helps in diminishing skin rashes.

Angelicae Dahuricae

Involves natural skin whitening agents, promotes skin metabolism, pigment decomposition and reduce/remove freckles.

Radix Glycyrrhizae
(Licorice Root)

Contains properties that prevents or reduce skin irritation, hyperpigmentation and inflammation.

Seaweed

Used for its superior hydration and anti-aging properties. Effective against acnes, rosacea and various inflammatory symptoms.

Bletilla Striata

Popular for its whitening effect, helps to reduce swelling, effective at diminishing acne scars and good at moisturising.

Main Ingredients

Green Tea Leaves

Recognised antioxidant benefits that delay signs of skin aging. Works well against sagging skin, sun damage, age spots, fine lines and wrinkles.

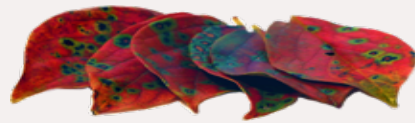

Semen Pruni

Often used to control/prevent facial edema and skin infections. Helps in brightening the skin while keeping it soft and supple.

Semen Coicis
(Coix Seed)

Controls oil secretion on the skin, correct/reduce pigmentations, replenish moisture to the facial skin.

Persimmon Leaves

Comprise of Vitamin C, flavonoids and amino acids. Good for brightening skin tones, removal of coloured spots and treatment of melasma.

Asarum Sieboldii

Known to contain effective anti-inflammatory agents, good at inhibiting the synthesis of melanin. Promote regeneration of skin cells.

Poria

Ancient herb used to boost skin immunity, treatment of facial spots, psoriasis and eczema. Contains strong anti-oxidants that prevents cellular damage.

Use them together over a period of 1 month and you will see positive results!

Case Studies

Treatment of various skin problems with Lilyanna herbal skincare products

*Disclaimer: Results from using the products will vary with individuals due to different skin types, conditions, lifestyle, diet and genetic makeup. Due to the nature of the herbal ingredients, reactions will vary with individuals. Symptoms such as redness, puffiness, itchiness, sneezing, purging of facial impurities, etc, are common reactions during detoxification. Continuous usage until the above symptoms disappear is suggested for a thorough purification of the facial skin. However, should the user decide to continue using the products, he/she is advised to do so at his/her own discretion.
