HOW DOES OUR DIARY HELP WITH COMPLIANCE?

FRAMEWORKS

Principles

• Partnerships with families and respect for diversity are encouraged with weekly planning prompts, displayed program, weekly reflections, extension planning, and a diversity dates calendar. Secure, respectful, and reciprocal relationships are promoted through a program that encourages holistic planning that prioritises nurturing relationships, interdependence, wellbeing, and connectedness. Embedding Aboriginal and Torres Strait Islander Perspectives and Sustainability is prompted through a weekly culturally responsive and sustainability planning column. The Creative Thinking Program is designed to support educators in their commitment to equity, inclusion, and high expectations in their program and practice. A weekly reflection spread captures critical reflection and a development summary captures ongoing professional learning. The Butler Method promotes collaborative leadership and teamwork through a program designed to capture the ideas and reflections of all staff, families, children, and the community to provide the best outcomes for children.

Practice

Holistic, integrated and interconnected approaches, play-based learning
and intentionality, learning environments, cultural responsiveness, and
responsiveness to children are encouraged through our box prompts in the
weekly programming spread. Continuity of learning and transitions is
promoted with weekly reflections and extension planning. Assessment for
learning is captured in photographic evidence and reflections.

Learning Outcomes

• Supports your planning and reflection based on the **EYLF outcomes** with a weekly framework checklist.

HOW DOES OUR DIARY HELP WITH COMPLIANCE?

THEORETICAL LINKS

- Erikson believed children move through 8 stages across their lifespan in their social and emotional development. Children are supported through a crisis to develop socially and emotionally when the environment and educators support their development. This can be done through relationships, planning for children's skills, providing a variety of play experiences, and inviting children to contribute to the program, which is supported and promoted by our planning boxes.
- Piaget believed children must master one stage before they can move on to the next stage of cognitive development. Planning for children's individual skills, interests, and abilities is prompted through reflection and extension planning.
- Gardner suggested there was more than one intelligence, we respected this with planning boxes to explore physical learning, exploration, children's interests, and learning through the senses.
- Montessori believed children learn best when using their senses and following their interests.
 We have embedded this theory with planning boxes such as Water / Messy Play and Children's Spontaneous Choices.

DEVELOPMENTAL MILESTONES

- Physical development is recorded through Fine Motor / Cognitive and Gross Motor / Physical planning boxes (EYLF LO 1, 3, 4)
- Social development is captured through Fine Motor / Cognitive and Structured Games planning boxes (EYLF LO 1, 2, 3, 5),
- Emotional development is captured through Risky Play and Structured Games planning boxes (EYLF LO 1, 2, 3, 4),
- Cognitive development is represented through the Fine Motor / Cognitive planning box (EYLF LO 2, 4, 5),
- Language development is captured through Fine Motor / Cognitive and Structured Games planning boxes (EYLF LO 1, 5) and
- Children's development across all areas is captured in Children's Spontaneous Choices, Nature Play / Exploration, Messy Play / Water Play, and Risky Play planning boxes (EYLF 1, 2, 3, 4, 5).
