Welcome to use BM2-S Bluetooth Helmet. Please read the manuals before using. BM2-S Motorcycle Bluetooth helmet is a perfect helmet that offers you a complete system for all your communication needs while riding your motorcycle. With built-in ear speakers and noise canceling microphone, it allows bikers to receive GPS voice instructions, to conduct calls on their mobile phone and listen to the music on MP3 player. Last but not least, the helmet offers biker to passenger or biker to biker intercom communication so that you can always be in touch while riding.

User's Manual for Motorcycle Helmet

User's manual

1. In fact, no helmet can protect you against all kinds of predictable risks. For the sake of your safety, please choose the proper size which will fit your head, and make sure to wear it in a right way. Choose the helmet snug and comfortable. It must not be so large that it moves freely about your head, nor so small that it constricts and cause pain.
2. Tie the chin strap, and make sure the helmet will not depart from you. Check the safety strap before you use it.
3. Pay attention to the usage of the helmet, don't mend it or change any accessory by yourself.
4. Check the performance of visor in normal condition, if any visor system included. Don't use the visor that exceeds usage.
5. If your helmet was bounced in an accident, the performance of protective will be destroyed though it looks nothing happened. Please do not use it any more.

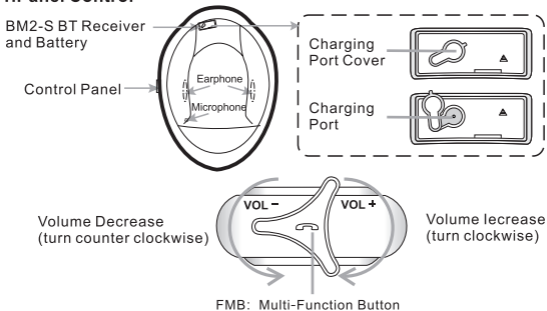

Maintenance and cleaning

1. When you wear helmet for a period of time, you should clean it. If the lining can be detachable, please take off the lining and wash it with warm water.
2. When you assemble the helmet, please be careful to avoid any damage to the outside varnish.

- When the helmet is unused, please keep it in a dry and cool place.
- You should not subject the helmet to strong sunlight in an unclosed area such as back shelf of a motorcycle.

User's Manual for Bluetooth Intercom System

1. Panel Control

2. Paired with intercom headset, cellphone, GPS or other electronic devices.

- Turn on your cellphone, GPS or other devices and turn into BT search mode.
- Press and hold the MFB button (for about 6s) until blue&red indicator flashes alternatively.
- Choose "add new device" or "BM2-S" on your phone, GPS or other devices.
- Original code is "0000" if required.
- After paired with other devices successfully, they can be paired automatically next time.

3. Paired with another Bluetooth intercom headset

- (1) Make sure there is no other active BT devices when pairing with the target device
- (2) Press and hold MFB button (for about 6s) until turning into pairing status under "off" status, this time blue&red indicator flashes.
- (3) Press one of MFB buttons to finish pairing. After successfully paired, there will be a short tone "di" and the flashing blue&red indicator will only remain blue light.

4. Function and Operation

1. Turn on	Press and hold MFB button (for about 3s) until hearing a short tone "di", blue light will flash quickly for 3 times and turn into regular flashing.
