KAI
COPEN
HAGEN

by Josephine Blay

Hi. I am Josephine Blay.

Thank you for your interest in my jewellery collection.

This collection is made for you who like jewellery to carry a personal message or to tell a story about the person wearing it.

Enjoy.

Josephine Blay is the creator behind KAI Copenhagen jewellery.

It all began with the guardian angel pendant that came to life when her own children reached an age where they had to join the real world, away from "Mummy's" protection.

Josephine made a guardian angel pendant for her youngest, when she started school.

Soon family, friends and neighbours asked for guardian angel pendants and today the pendant is worn as a symbol of love and protection across borders, faith and culture around the world.

KAI Copenhagen Jewellery consists of four smaller collections:

"Guardian Angels", because angels have been a symbol of protection always.

"The Heart", because love is the greatest gift of all.

"The cross with an open heart" because when your heart is open, love will always find its way.

"Little boys & girls", because children are our future and the anchor of our hearts.

Guardian Angels

PETA: Silver 950S. Hight: 30mm. Item no: KA-104S-30.

Symbols

Asteri - Star

Asteri means star and The North star has historically been used for navigation since Late Antiquity. The angel with and engraved "north star" is a symbol of being on the right path.

Cora - Heart

Cora means heart and is the symbol of love. This angel has an open heart, because when your heart is open, love wil always find its way. Open heart - Open mind.

Filo - Leaf

Filo means leaf or sprout and is one of the oldest symbols in history for peace, triumph, victory, good health or eternal life. A leaf or a sprout is like a small growth - a little new bud or a new beginning. Kids are constantly sprouting (growing).

Peta - Butterfly

Peta means fly and Petaluda means butterfly. The butterfly symbolizes transformation and joy. Its dance reflects the need for movement from where we are, to our next phase of being. The 3 butterflies means that we are not alone.

Little Boys & Girls

Children are the anchors of a Mother's heart

Little Boys

why KAI?

As a child Josephine was often waiting for her Grand Dad by the quay (Danish: Kai) in Copenhagen harbour.

He was a captain of the seven seas and it was always a touching moment when he returned home.

His name was Kai.
